PRESIDENT'S MESSAGE

Club Sports
vs.
CIF Sports

By Paul Breit, President
CIF-SS Executive Committee

I was privileged to attend two of the CIF-SS Boys Basketball championship games at the Pond in Anaheim. I continue to be amazed at the athleticism of the students and the excitement of a championship game. The games were exciting, with the crowds from both sides actively involved in the game. The sportsmanship and competitive spirit on the part of the student athletes was excellent.

I attended a state CIF meeting in San Diego in February. One of the major issues of discussion was club sports and their impact on the CIF. On Saturday morning a panel, consisting of high school coaches, club coaches, parents, students, and others selected for their expertise, was held to discuss some of the issues regarding school and club sports. The meeting was a result of a by-law passed by the San Diego section regarding participation by student athletes in club sports during the "season of sport". A well-known sports-caster from San Diego was the moderator and he posed a series of questions to be discussed by the panelists. The purpose of the panel was to have open dialogue and discuss/clarification of their respective roles of the schools and clubs. The students were very articulate and indicated that some had been placed in a win-lose situation by having to make a choice between the school or club team. The panel lasted 2½ hours with excellent dialogue exchanged. The intent of the panel was not to create solutions, but to consider first steps toward working together for the common good of the student-athlete. Almost everyone left the meeting with a better understanding of roles of both school and club sports with suggestions for the two groups to begin to work together.

I share this meeting with you because the Southern Section schools continue to have a less than positive relationship with club sports. We certainly can have our own opinions about club sports, but the reality is that clubs are here and here to stay. I would welcome the opportunity to put to-

MARKETING UPDATE

**END OF THE YEAR NEWS
FROM OUR SPONSORS**

**24-HOUR FITNESS TEAM SPORTS
CONTINUES WITH NEW AND IMPROVED
SUPPORT OF HIGH SCHOOL ATHLETICS**

With the summer fast approaching, long time CIF Southern Section partner 24 Hour Fitness Team Sports is rolling out new opportunities for your varsity athletes and teams.

As with their long-standing programs, their offers are a WIN for our member schools and a great way to keep you student-athletes in shape over vacation.

SUMMER MEMBERSHIPS: The annual Athlete Summer Membership program is back but with a *new twist* this year. They are introducing a new two-step process that will help 24 Hour track the program success and offer your student-athletes an even larger discounted membership.

1. First, each member school will be receiving a package from the Southern Section during May that will contain summer membership coupons for your athletes. Your athletes will need these to take advantage of both the program and added savings. Be sure to pass them out to your athletes.
2. Upon presenting their coupon to register for their membership, your athletes will save an additional \$10 off the three-month summer rate for varsity athletes. That's just \$89 for the summer.

That's it. Coaches pass the coupon to the athletes and the athletes save money while working out at state-of-the-art facilities during the summer.

SCHOOL FUNDRAISING BY SELLING 14-DAY TRIAL MEMBERSHIPS:

A program launched successfully in Orange County last year will expand throughout the section this summer. Participating schools that acquire their coupon books from the Southern Section office, receive 100% of the \$10 trial memberships sold by their booster clubs or teams. **That's right, you receive 100% of the revenue for your hard work.** Thus, if one coupon book of fifteen coupons is sold your school receives \$150. Do the math on multiple coupon books successfully sold and you can see the possibilities. Additional information and the coupon books will be available to schools this summer. Be sure to put this opportunity on your short list for fundraising efforts next fall.

FREE TEAM WORKOUTS: 24 Hour Fitness Team Sports will continue this widely popular program that allows varsity teams to use their facilities again next school year. Every team can take advantage of this program just by having the coach sign the team up in one visit. A reminder that this program is offered during the non-peak rush hour times and is designed for teams to use the facilities during their non-competition season. It's a supplement and a great opportunity to gain access to quality facilities when your campus facilities are not available.

24 Hour Fitness Teams Sports offers each of these programs to the Southern Section student-athletes in their support and commitment to interscholastic and Olympic sports.

**TOYOTA AWARDS PROGRAMS
HONOR SPORTSMANSHIP AND
ACADEMIC AWARD WINNERS
DURING APRIL AND MAY**

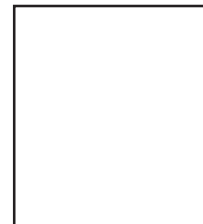

The CIF Southern Section would like to thank the Southern California Toyota Dealers Association for their continued sponsorship of the Kenny Fagins Shake for Sportsmanship and annual Academic-Athlete Awards programs. Winners for these programs were honored April 16th at Dodger Stadium and May 6th at Edison Field.

Now in their second year as the title sponsor of the Southern Section – TOYOTA Championships, the 56 local dealers are also major and long time supporters of many local school teams and athletic programs.

One of the nation's largest contributors to high school athletics, thanks to Toyota for the continued support of the Southern Section and we look forward to another record setting year in 2003-2004.

**COMMISSIONER'S
CORNER**

**Let's Hear It
For A
Little Loyalty**

**By James Staunton, Ed.D.
Commissioner of Athletics**

This spring marks the first time since 1995 that Open Enrollment forms will not be pouring in to the office.

In April 2002 the Section deleted rule 214.1 from our Bylaws. That action effectively eliminated the one-time move that students had enjoyed. The reason for removing the rule is simple: principals and athletic directors throughout the section saw large numbers of students transferring for athletic reasons alone.

There are a lot of arguments on either side of the issue; parental choice, quality of schools, freedom of movement, college scholarships, championship programs and many others. I'd like to mention one reason that supports the change in the rule – loyalty.

Lost in the discussion that surrounds any transfer is the concern for that one athlete who deserves our consideration; the student who loses his position. Working in the office I try to think about the number of students every year who give up their place on the field, or on the bench to a stranger who transfers in to take his/her position on the team. What about him? What about her?

Don't our coaches teach the principles that hard work; loyalty and devotion to the team will be rewarded? Don't we encourage students to play sports as an expression of their love for their school? If we do, then it is hard to accept that a student who shows up prior to the start of a season to claim a varsity spot should be rewarded. Of course coaches are hard pressed to overlook great talent; indeed many parents argue that coaches are obligated to play the most talented (read - my child) athlete(s) on the squad. I don't know if that is true. Sure the desire to win is strong and to do that we must play the best, but many coaches will also tell you that the most talented athlete(s) may not get you to the championship.

RULE REVIEW

Bonafide Change of Address

By Karen Hellyer
CIF-SS Assistant Commissioner

This year section staff has had to make several difficult calls regarding the definition of a "bona fide" change of address. Our schools have sought help in determining if a student is legitimately in residence within the appropriate attendance boundary.

In two highly publicized cases, a parent changed his/her address and attempted to establish residency according to our rules. Staff had to advise the athletic director on whether or not the move was acceptable, and they were both very tough cases. I'd like to spend a little time looking at Rule 219 and explain the criteria that we use to establish just what "bona fide" means.

As a starting point, the section has ruled that a student may have "only one bona fide residence at a time". Accordingly, a parent cannot rent an apartment for a period of time just to establish eligibility without actually living there. If a parent owns multiple properties, then the family (meaning the parent(s), guardian(s) or care-giver(s) together at the time the student established initial eligibility) may only have use of one of those facilities. If the family unit has changed address, then they must satisfy the athletic director that they no longer reside in the former address, visit the former address or use it to store clothing, possessions, pets or siblings. In some cases the older adult sibling may rent/lease the former address (at fair market value), but that person should not have been part of the family that was together at the time of establishment of initial eligibility of the athlete in question.

Sometimes parents divorce before the student starts ninth grade and split time between homes. To establish eligibility look for a parent who can be considered the one who has "physical custody" in the sense of being the parent who registers the student, receives the grade reports and is listed on the school's emergency card as the first contact. Courts routinely grant custody on a 50/50 basis, but with physical custody to one person or the other. We worked very

We encourage schools to coach kids in principles of integrity, fairness, respect, and loyalty. If that is the case, then I believe that we owe a tremendous debt to all of those hard-working kids who, in the middle school years, decide that they want to play for their local school. Really, the hard working, loyal, dependable student is the one we should praise and seek for our teams. The high profile, big impact athlete may have an immediate impact, but the short-term affect of his/her presence may be a long-term problem. If a coach wants loyalty from his students, he should be willing to practice it in return.

Loyalty may be considered old-fashioned, but it is as important as ever in a world that has sacrificed a lot of other values in the name of progress.

PRESIDENT'S MESSAGE

(Continued from page 2)

gether a panel, similar to the one in San Diego, as an open-ended part of one of our Council meetings. I would welcome your thoughts for an organizing panel similar to the one held in San Diego.

We continue to have a shortage of officials in every sport. The analogy is like an upside down funnel. We have a few new people entering the field, but a huge number either retiring or leaving officiating. We have thousands of student athletes who have had a great experience during high school, but have chosen not to participate in athletics at

the college level. If we were to actively recruit this wealth of student athletes to officiate while they are going to college or working could possibly help us take a vital step in reducing the growing shortage of officials in the Southern Section, California.

It is hard to believe that we are approaching the end of the year already. I have thoroughly enjoyed being the President of the Council this year and am looking forward to 2003-04. I listen and read information from the media on what's wrong with athletics. Then I attend CIF-SS games/matches and

continue to realize that in spite of what we hear and read, high school athletics is still the best game in town.

Have a great summer and help us continue our pursuit of attaining "Victory with Honor".

THREE SCHOOLS CLAIM FOUR TEAM TITLES IN THE 2002-2003 CIF-SS ACADEMIC AWARDS PROGRAM

San Marcos was awarded seven team championships in the 2002-2003 CIF Southern Section Academic Awards Program to lead all schools. San Marcos claimed championships in boys basketball, girls golf, girls soccer, softball, girls tennis, girls volleyball and boys water polo. The next closest school was Laguna Blanca with three titles. Laguna Blanca claimed titles in baseball, boys soccer and boys volleyball. Seven other schools finished the year with two titles to their school's name.

The team awards, granted in 22 sports, are based on cumulative grade point average. To be considered, teams must have accom-

plished a minimum 3.0 grade point average (4.0 scale) in college-prep courses in the first semester of the 2002-2003 school year. The highest GPA in each sport determines the champion.

Each CIF-SS member school is also entitled to name boy and girl individual "Student-Athlete of the Year Award" winners. Individual award recipients must be seniors who have maintained a minimum 3.5 GPA (4.0 scale) in college-prep courses over the past three years, in addition to earning a letter in at least one varsity sport

RULE REVIEW

(Continued from page 6)

hard this year on one case where this was very difficult to establish.

If both divorced parents living in different residences in the same attendance area insist that custody is split exactly 50/50, including custody for athletic purposes, then both parents would have to move to a new attendance area in order for a move to be bona fide.

This year council approved additional language to Rule 219 to make it more explicit as to what an AD should look for as evidence that a new residence is legitimate. We hope that this extra effort will deter families from moving from school to school strictly to establish eligibility.

Most everyone has a horror story to tell about a move that does not appear legitimate. We will work with any AD who has questions about the legitimacy of a move. Our basic advice is to not declare a student eligible until the AD is absolutely satisfied that the move is bona fide, that the family is indeed living in the new address and that the family unit has stayed together at the new address.
