

**CIF- SS Softball Power Ranking Information
(2015 and 2016 Season Data)**

Rational:

1. The column labeled "Average" is the one used to place teams in the 2017 softball playoff divisions. This is the schools two-year weighted average over that time period.
1. Based upon a two-year weighted power point total. The 2015 season was given a 25% weighted value and the 2016 season was given a 75% weighted value.
2. Strength of the regular season results and playoff performance results over the last two seasons.
3. Regular season matches and playoff opponents are weighted based upon the strength of the opponent and the division they were previously placed in.
4. Division splits are based upon a two-year average of automatic playoff entry bids required to fill a 32 team bracket.
5. The column highlighted in "blue" next to a school's name indicated they were an automatic playoff entry either for the 2015 or 2016 season.
6. Teams that are in "RED" while they have been placed in a playoff division for the purpose of opponents who play them are ineligible for the playoffs because they failed to submit the two-year information as required by the CIF bylaw.
