WHAT'S HAPPENIN' IN THE OTHER 49 STATES

(EDITOR'S NOTE: This is another in a series of monthly articles covering items of interest from throughout California and other State Associations in their administration of high school athletics.)

ITEM: Principals express concerns.

COMMENT: The Massachusetts Secondary School Principals Association is opposing several bills before the Massachusetts State Legislature, including a bill that would provide that no student could be prohibited from school athletics because of non-school competition; a bill to require football coaches to be certified; another bill requiring all football helmets to have a NOCSAE stamp of approval. Among the legislation being favored by the MSSPA is a bill to prohibit girls participation on the same team with boys in contact sports and a bill requiring ice hockey players to wear protective helmets.

ITEM: Legal ruling in Illinois.

COMMENT: Teachers can be assigned non-teaching duties, according to an Illinois court. In DISTRICT 300 EDUCATION ASSOCIATION VS BOARD OF EDUCATION, the court said, "such duties were proper adjunct to classroom instruction and were not demeaning or unnecessarily burdensome" and ordered the teachers to perform them. Teachers in the district were being assigned crowd control at public events and to activity advisories, some requiring work on Saturdays and all of it at a pay scale substantially lower than the regular rate of pay for teaching duties.

COMMENT: Eligibility rules differ from state to state.

ITEM: Separate programs in Colorado.

COMMENT: The Colorado High School Activities Association Board of Control went on record supporting separate programs for the sexes. The Board of Control adopted a resolution, submitted by the CHSAA Executive Committee and presented by Jefferson County representative Alice Barron, which reflected dissatisfaction with certain sections of the Colorado Equal Rights Amendments as it pertains to interscholastic athletics. The resolution reaffirmed the Board's belief in separate programs for boys and girls in contact sports and where comparable programs exist.

ITEM: Interpretation meetings required in Indiana.

COMMENT: The Indiana High School Athletic Association will conduct 121 rule interpretation meetings during the 1976-77 school year. The Association will sponsor 24 clinics for boys and girls basketball, 24 for football, 23 for baseball, 14 for wrestling, 11 for boys and girls track and field, 10 for volleyball and 6 for girls gymnastics and boys and girls swimming and diving. Head coaches of these sports are required to attend one rule interpretation meeting for the appropriate sport. If there is no representative from a school, the principal of that school will be notified of the fact by the Association. If the school is not represented at a second meeting, the principal will be requested to appear before the IHAA Commissioner. In the event of a third absence, the principal will be required to appear before the Executive Committee, which may issue a warning, probation or suspension of the membership of the school involved.

COMMITTEES

(Continued from Page Three)

man Joseph Deal (South Hills) Roger Bruscha (Bolsa Grande), Fr. Lawrence Caruso (St. Francis), Fr. Jerome Cummings (Bishop Diego), James Fleming (Glen), Gerald Harper (Paciio Christian), Edward Krass (Saddleback), Linda Shatt (Mater Dei).

RELEAGUING COMMITTEE:

Ron Barney (Thousand Oaks), Fr. Lawrence Caruso (St. Francis), Don Conda (Victor Valley), James Furl (HH Wilson), Dick Jacobson (Miraleste), Bruce Keating (Valley Christian), Mel Locke (La Serna), Robert Packer (Costa Mesa), Blii Tenney (Central), Ted Tiffney (Garden), Joan Wilson (Jurupa Unified School District). Chairman will be elected at the first meeting.

RELEAGUING RESEARCH COMMITTEE:

Chairman, Walter Wohlfeiter (Churr), Earl Oly (Bell Gardens).

TITLE IX COMMITTEE:

Chairman, Barbara Wilson (Beverly Hills), Jerry Jerberg (El Dorado), Donna Hammers (Los Alamitos), Wynola Kees (Palm Springs), Bill O'Rourke (Pais Verdes), Ron Waldron (Artsia).

SAFETY REVIEW

(Continued from Page Four) months, we feel that we have made great steps toward offering as safe a program as possible for our athletes and physical education students. My thanks to our Principal, Tom Koloski, for his whole-hearted endorsement and to the many people who are willingly devoted their time.

EQUIPMENT CHANGES

(Continued from Page Six)

5. Padded balance beams which otherwise meet specifications are legal. (4-1-2)

6. The height of the horse shall be 47.5 inches or 120 centimeters. (5-1-1)

7. A running strip for vaulting is required. It shall be no more than one inch thick and a minimum of 50 feet long with a smooth, nonslip surface. (5-1-6)

TRACK & FIELD

1. Beginning in 1978, the stopwatch for the pole vault shall be placed at 105 degree angle from the base. (1-7-3)

2. The circumference of the relay baton shall be a minimum of 4 inches and a maximum of 5 inches. (1-16-5)

Page Eight
The purpose of this month's article is to point out to the administrators, coaches and students some of the functions that most properly should be handled by your league representative.

Article III of the CIF Southern Section By-Laws indicates the following requirements:

1. Shall see that the CIF Southern Section rules and regulations are understood and enforced by the individual schools of the league. (Note: this does not relieve the principal of the responsibility of seeing that the rules of the CIF Southern Section rules). All CIF Southern Section eligibility rules shall apply in all games, including those played in Interscholastic League, league tournaments and playoff games.

2. Shall see that all protests within the league are properly investigated and tried by the league.

3. Shall attend all meetings of the CIF Southern Section Council and remain in attendance at all Council meetings until adjournment, unless excused by the President who may, in case of emergency, for Traveling expenses shall be paid to those who are in such attendance.

5. Shall inform the Commissioner of Athletics of the names of the schools from the league which have qualified for participation in CIF Championship playoffs and the names of the students from the league who qualify for participation in CIF Interscholastic competition in individual sports.

6. Be responsible to see that all schools in the league submit their application to the CIF Southern Section.

As you can see, representatives have a broad authority of act to act on behalf of their league. (Continued on Page Three)
As the CIF-SS begins its third year in spearheading girls' sports, it is appropriate to make note of what has been accomplished these last two years. The results of an end of the year survey of the girls' athletic directors shows an overwhelming approval and appreciation of services and opportunities offered to girls' sports by the CIF.

A monthly "Athletic Director Newsletter" was sent out last year. 83% of our women athletic directors found this publication timely and helpful in assisting their programs.

The CIF-SS governs high school athletics for the physical, mental, and social benefits which the student can gain by participation in a sports program. The high school athlete is an amateur. Section 3 of By Law XXVI states that "an amateur does not benefit, directly, or indirectly, from receipt of any pay or financial benefits in consideration of, or as a reward for, participation of any CIF-SS approved sport in any public competition or exhibition, or disposing of property in which the student has an interest in." Likewise, Section 3 of By Law XXII states that "a high school student may receive no pay for participation in a non-profit athletic award for CIF-SS high school competition of more than ten dollars in value." So, the student "Becomes ineligible for further high school athletics and shall automatically be barred from competition during the successful operation of that sport's season and for one full year thereafter." until reinstated to compete.

If your athletes have received awards or are in the process of some outside competition for awards, she may be in violation of her amateur standing as a participant in the CIF. Likewise, coaches and athletic directors are reminded that a $10.00 limit is placed on any awards given. Awards for a CIF-SS championship team may not exceed $25.00.

The playoff opportunities for girls' sports have been increasing in the two years of their existence. The majority of sports are played on weekends and the number of playoff teams are increasing in the number of playoff teams. In 1975, the CIF-Southern Section has had a number of inquiries as to the dates and sites of upcoming playoff games. To date, three have listed their programs with the CIF-SS Office and the information will be published.

The CIF-SS striving to provide better communication and better organization of the girls' prep sports in the Southern Section. 81% of the women athletic directors feel that their membership in the CIF has brought greater advantages and prestige to their programs than in previous years as non-member.

Presently, the principals of the member schools have final responsibility for both boys and girls sports. 89% of women athletic directors feel that the organizational structure is adequate.

The existing means of communicating within the girls' leagues to the CIF-SS are the leagues' coordinators and the leagues' representatives. 90% of the women athletic directors feel that they have had a greater opportunity for input to their leagues and to the CIF than in previous years.

The results of the survey prove that the women in charge of girls' basketball programs in the Southern Section are pleased with the present program and are encouraged by the increased assistance the CIF-SS offers them in organizing and improving their programs.

SOUTHLAND COACHING CLINICS ANNOCHED

Clinics have become popular items in the coaching ranks throughout the CIF-Southern Section over the past few years and this office has had a number of inquiries as to the dates and sites of upcoming programs.

To date, three have listed their programs with the CIF-SS Office and the information as follows:

**CENTRAL CALIF. FOOTBALL**

... set for December 11 and 12 at the Sheraton Inn in Fresno featuring Mike White and the Golden Bear Coaching Staff. For further information, contact Gil Await, Clinic Director, 1625 Scott Circle, Clovis, California 93612.

**WILDCAT COACHING CLINIC**

... set to go at 11 Camino High School on Saturday, January 8, 1977, featuring Vic Cuccia highly successful football coach of U.A. Wilson in Los Angeles, the 1975 City AAA Football Champion.

**NEW VOLLEYBALL TEXT AVAILABLE**

The most comprehensive and authoritative text on volleyball released during 1976 is Allen E. Scates' Winning Volleyball (6th ed.). Mr. Scates has coached UCLA to National Collegiate Athletic Association (NCAA) volleyball championships in each of the last seven years while serving as an elementary physical education specialist for the Beverly Gardens Elementary School district. He therefore understands the full range of skills which players bring to the game of volleyball and is able to write a text which is applicable to all coaches, regardless of the age with which they work.

The 200-page text, which is generously supplemented with photographs and charts, is divided into four parts: fundamentals, team play, special groups, and organization. Fundamentals of serving, passing, setting, blocking and an individual defense techniques are discussed in the first part. Various offensive attacks and defensive strategies are discussed under team play. The third section includes a brief discussion of organization volleyball and the last section for junior high school volleyball Coaching, conditioning and training are the focuses of the section on organization.

Because Mr. Scates experience in collegiate and international volleyball, there are some discrepancies with the high school volleyball, but this is the only major fault, and an understandable one, in an excellent book. Winning Volleyball is published by Allyn and Bacon, Incorporated of Boston.

**AD CONFERENCE ON TAP IN SAN DIEGO**

**PLUTKO TO SPEAK**

The Town & Country Hotel in San Diego will be the site of the Seventh National Conference of High School Directors of Athletics on December 12-15.

The conference activity fee, which includes a tour, banquet and luncheon is $25. Room rates, for the conference, at the Town & Country are $22 and $24 (single) and $28 and $36 (double).

Nationally known speakers including Ray Plutko of the CIF-Southern Section Office, make worksop presentations at a comprehensive exhibit area, and the Medallist Management Seminar will be featured this year.

**RAY PLUTKO CIF STAFF**

Conference registration materials have made their way through all administrative offices in the Southern Section. SEE YOU IN SAN DIEGO.
WHEN DO WE PLAY FOR FUN

(NOTE: The following article was written by John Crabough, former principal of Palaki High School in Wisconsin. The article appeared first in the Palaki High School News and then in the BULLETIN of the Wisconsin Interscholastic Athletic Association. We do not agree with all the points raised by Mr. Crabough, but we do share the author's overall point of view that intelligent, informed discussion about the proper amount of time that sport participation belongs to the parents. In fact, the program is not for coaches OR parents; it's for KIDS. And only when coaches AND parents realize this fact will the program be as fun as it can be for the kids. Clifford B. Fagan, Editor-National Federation of State High School Athletic Association.)

A theater in Green Bay recently showed a movie entitled "The Bad News Bears." Three of my kids went with me and thoroughly enjoyed the film. I was a little surprised, however, at the way the kids recalled many unmanaged group of untalented juvenile delinquents disguised as baseballers. While the kids did remember their foul balls, foul language and total lack of dedication—I squirmed wondering while my mind wandered. What I wanted was—did I ever coach athletic programs?—to be able to wander as I pleased myself in the role of the kids, to have the freedom to make mistakes in a program that belongs to the parents. In fact, the program is not for coaches OR parents; it's for KIDS. And only when coaches AND parents realize this fact will the program be as fun as it can be for the kids.

I strongly urge all coaches to see "The Bad News Bears". It is not a judgmental film, nor is it a mean- spirited film like the ones of "One Flew Over the Cuckoo's Nest". On the other hand could be even worse if you fail to watch the film with kids after viewing the film, see me—I have a resignation blank in need of your signature. You owe it to yourself and our kids to sign it and to yourself and our kids to sign it and to yourself and our kids to sign it and to yourself and our kids to sign it and to yourself and our kids to sign it.

As a frustrated former coach whose misery is in second guessing on Monday, Wednesday, and Friday when C.C.R. (career coaching record) improves each year I am out of the sweaty, analogic-smelling gym. I've got ten "thatsha" nots! I offer them as a parent in behalf of my kids. Teachers and MAYBE OPTIONALY PARTICIPATE IN OUR athletic program.

When they do not establish depth charts. They may be necessary in a submarine, but they are demeaning to a baseball player, who gets pumped up for practice only to find he is ninth string "way back there.

2. Thou shalt not talk about your high school heroes. You are wasting my kid's time, valuable practice time, and he's liable to be an avid historian of legendary football players. If in the normal eye, the image is transposed onto millions of retina cells with something like 20/20 for central or straight ahead vision, a dark spot of a distance (numerator) of 20 feet, you see what the average normal eye should see (denominator).

With a number of conditions, a distortion of the light rays occurs before they reach the retina, and the clear vision of close objects, the eye's ability, in front of the retina, to see objects the light rays are focused on is impaired. Distortion of the retina.

With hyperopia (clear vision of far objects, the reverse occurs. When looking at a football target, the image is blurred. When the image is focused on the retina, the image is blurry.

Astigmatism is a cylindrical defect of focusing in which the light rays enter the eye and are not focused on the retina. The image looking at a movie, or simply humbling because he has done his best and healthy way to another body, better body.

WHEN DO WE PLAY FOR FUN
(Continued from Page Seven)

How would he find out? You've probably done nothing but talked about a certain group of athletically talented kindergarten kids for ten years.

10. Thou shalt not be covetous of the athletic program to the point you think the program is yours. The program is OURS as parents. Treat my kid tactfully and with respect. Tomorrow it will be their turn to decide if I want my child to play, particularly under my old coach? Think of the insights my kids (as in parent) will have.

Page Eight

One final note. It appears I've overlooked parents by addressing coaches specifically. I don't mean to bypass us. You and I have committed gross errors as well. Though the Bears in the movie were kids, the coaches and we are "the bad news".
