has been offered to the C. I. F., S. S. by his wife to consist of a trophy for the school winning the one mile run in the Southern California Track and Field Meet, and a medal for the winner. Mr. L. McIntosh moved that this trophy be accepted. Mr. Don McIntosh seconded the motion and it was carried. The President of the Council appointed the representatives to secure this trophy.

Riverside League Disturbances

Two instances of disorder following Riverside League basketball games have been reported. The Council recommended to Mr. Schaefer that the investigating and take steps to correct the situation.

Council Agenda

Mr. Lawson requested that the agenda for the Council Meeting be mailed far enough in advance of the League Meeting may be called to discuss any vital questions. The Committee will comply with this request.

A. D. A. Classification

Mr. Donald McIntosh asked that the Council take cognizance of the A. D. A. difference between 3 and 4 year high schools. Mr. Morgan suggested that the schools be classified as to their A. D. A. figure on their 11th, 12th and 14th grades of the non-competitive schools be doubled. This classification list is to be used in tournaments where schools are divided according to enrollment.

Mr. Lawson seconded the motion and it was carried.

Football Bye Dates

The following schools have football bye dates which they wish to fill for the 1947 football season:

El Centro, October 24; November 7.

Jourdane, Long Beach, September 27; October 17.

Santa Barbara, September 26; October 17;

November 13.

Leuzinger, November 14.

San Diego, November 8.

The meeting was adjourned at 3:30 P. M.

CLASSIFICATION ERROR

When the September Bulletin was sent out, three copies of the card for classifying the Three-Digit Data and the exponents of boys below Class A were enclosed in the same envelope. An error was made in printing the cards, and the exponent for age was four points too low. The error was discovered two days later.

The cards were corrected and reprinted at once. Exclusive of this, there were no other changes made in the supply.

Please out with a special bulletin directing that the yellow cards be destroyed and the white cards be used.

Very recently we have been informed that some schools are using the yellow cards in spite of these instructions. If the yellow cards were used, the exponent for age should be added to the exponents for age. The C.I.F. Office will insist that all Class B & Class C track candidates be carefully rechecked before Divisional Meets.

TICKET TAX

To State Executive Officers and Other Leaders of School Leagues

At the first meeting of the National Federation, the following resolution was unanimously adopted:

Prior to this, or a similar resolution was adopted by all school organizations in Iowa and by a number in other states. Each state high school association has been asked to secure similar action and contacts have also been made with Washington organizations, including the United States Department of Education, National Association of Secondary School Principals, and American Association of H.P.E.R.

RESOLUTION URGING REPEAL OF FEDERAL ADMISSIONS TAX ON HIGH SCHOOL EVENTS

Adopted by the National Council of the National Federation of State High School Athletic Associations at St. Petersburg, Florida on January 10th, 1947.

Whereas, during the war schools were happy and willing to pay federal taxes on their facilities, and particularly on educationally sponsored activities and whereas, many conferences have been made to business and industry to speed reconstruction.

Whereas, adolescents should not even in war-time have been taxed for strictly educational programs, the time has now arrived for a repeal of federal tax on school activities,

Resolved, therefore, that educational organizations through the state and national organizations, petition the United States Congress to repeal the federal tax law.

It is therefore necessary to enlist the support of persons of influence who lend support of the bills to be introduced in Congress and the Congressmen to whom the petitions are to be addressed.

Lobbyists in Washington have little effect as compared to the effect of direct letters, telegrams or any other communications to the respective Councils and representative organizations. Please urge your schoolmen to notify their congressmen about the widespread adoption of this resolution and to urge favorable action at the next Meeting, or Congress.

Suggest that the amount of money which is involved in these activities is very small as compared with other sources of federal aid. If the extra work in keeping all of these records and in sending up machinery for collection, is not out of proportion to the amount of money actually received by the federal government.

It. This group is unalterably opposed to the principle of all-star and out-of-season athletic contests in which high school students or high school graduates of the previous year are participants because:

1. Such contests do not harmonize with the generally accepted educational philosophy of high school athletics which emphasizes varied seasonal activities, broad participation, and school direction and supervision.

2. There are few tangible values apparent either to the individual, or to the selected team as a whole, resulting from such contests.

YEAR-END BULLETIN

No. 7

C. L. F. SOUTHERN SECTION

MARCH, 1947

Vol. 10

SECRETARY

Letter in National Federation Press Service

RESOLUTION:

Concerning All-Star and Out-of-Season Athletic Contests

(NOTE: This statement was drawn by a Committee made up of L. V. Phillips (Indiana), J. J. E. Rudder (Wisconsin), and J. E. Sager (Michigan), Chairman. The statement was adopted, in principle, in a joint meeting of the Western Conference and the representatives of the State High School Association in the Western Conference area.)

1. This group is unalterably opposed to the principle of all-star and out-of-season athletic contests in which high school students or high school graduates of the previous year are participants because:

A. Such contests do not harmonize with the generally accepted educational philosophy of high school athletics which emphasizes varied seasonal activities, broad participation, and school direction and supervision.

B. There are few tangible values apparent either to the individual, or to the selected team as a whole, resulting from such contests.

C. Such contests do not harmonize with the generally accepted educational philosophy of high school athletics which emphasizes varied seasonal activities, broad participation, and school direction and supervision.

D. There are few tangible values apparent either to the individual, or to the selected team as a whole, resulting from such contests.
CARDINAL ATHLETIC PRINCIPLES

Schools provide opportunity for each individual to develop himself to the limits of his capacity in the skills, appreciations and health consciousness which engender personal satisfaction and civic usefulness. A school program which includes the means for exploring many fields of activity is one that involves athletic participation. Participation in and appreciation of the skills in a sports contest is a part of everyday living. Ability to recognize degrees of proficiency in these skills is one important attribute of the well-balanced individual. The perfectly timed and coordinated activities by which an individual, or a team, strives to achieve a definite objective is an exemplification of cooperation and efficiency. A good school program provides a measure of benificent repressions and freedom; of mental growth and physical development; of liberties and restraint. Developing and maintaining a physically fit nation is one of its important aims.

For developing endurance, strength, alertness and coöperation, contexts and conditioning exercises have been a part of the school program. The over-all result is a free of physical development and social adjustment by endowing the individual with the desire to take the utmost advantage of the sports skills and the need for adherence to principles of fair play and right prejudice.

Encourage a balanced program of intramural activity in grades below the ninth to make the over-all pattern of this program of physical education one that is conducted in the spirit of a championship nature in these grades.

Engender respect for the local, state and national rules and policies for which this school program is conducted.

From National Federation Press Service

NEW RECORD

CLASS A—Beverly Hills 50 pts; Whittier 35 pts; Fullerton 23 pts.
CLASS B—Whittier 44 pts; Inglewood 32 pts; El Segundo 26 pts.
CLASS C—Whittier 50 pts; Fullerton 28 pts; Inglewood and El Segundo 24 pts.

The net receipts at the gate of the day's finals was $105.91. The amount plus the entry fees makes the swimming relays nearly self-supporting.
OFFICIATING TEAM GAMES

The C. I. F. Southern Section, during the month of February, attended a meeting of the Desert-Indyo League at Inyo-Kern and a meeting of the Southern League at San Luis Obispo.

The distant Leagues have the same problems that are common to the leagues located nearer the metropolitan center. They discussed scheduling, playing fields, C. I. F. rules, league rules, trophies, and especially officials for their team games.

As you would expect in these distant leagues none of the officials are full time but all are from Los Angeles. Quite the reverse seems to be the condition that is most common. Well trained, hustling officials do not exist in anything like sufficient numbers to meet the demands.

The C. I. F. Southern Section, office has been sending to several regions examination questions and other educational material prepared by the officials association which meets in Los Angeles. This year material has gone to the two Leagues mentioned above. This material has served a useful purpose, but in neither of these distant leagues do they have any officials association that is well enough organized to get the full value from the examination papers and other aids.

In the Southern California Officials Association which meets in Los Angeles, they have developed good leaders and good organizers and the educational work is of a high order. If a C. I. F. member takes the course offered by the football and basketball association and passes the examination with a good grade and still cannot do a good job of officiating, he just hasn’t got it in him to be an official. He had better withdraw from the work.

The remaining leagues will have to develop leadership and organizing ability among their members and in that way put over a good educational program. It has taken the Los Angeles association more than a decade to build up what it now has in the way of an educational program. Their fine list of splendid officials, makes the setup entirely worth while.

MINUTES OF THE EXECUTIVE COMMITTEE MEETING

MARCH 14, 1947

The Executive Committee met in the C. I. F. Southern Section Office, Thursday, March 20 at 1:30 P.M. Those present were: Mr. Kinster Hamilton, President; Mr. Normal Hayhurst, Mr. A. E. Konold, Mr. Seth F. Van Patten, Secretary, Mr. Arthur Bedenough, President of the Council, Brother Edwin, Vice-President of the Council, and Mr. Roland Davis, Director of Physical Education.

Santa Barbara Track Athletes

The Council at its meeting on February 1, 1947, directed Santa Barbara High School to send boys to the Ventura League Meet to qualify for the Divisional Meet.

The Ventura League protested this action by the Council. Their contention was that the presence of athletics in the league meet were not members of the league would detract from the glamour of the league which is the high light of the league track season.

Two alternatives were discussed by the Committee:

1. That Santa Barbara arrange a dual or a triangular meet with some of the larger schools and that it be a qualifying meet for Santa Barbara boys.
2. That the Executive Committee send timers and judges to Santa Barbara on a set day to time and judge Santa Barbara's boys and that the Santa Barbara boys must do as well or better than the third place boy in the Pacific League Meet to qualify for the divisional meet.

The Commissioner of Athletics was directed to work with Santa Barbara High School in carrying out one of these plans.

C. I. F., SOUTHERN SECTION MONTHLY BULLETIN

APRIL, 1947

Vol. 10

No. 8

Midland School

Mr. Van Patten presented a letter from Midland School at Los Osos in Santa Barbara County asking to be admitted to the C. I. F. Southern Section. It was received by Mr. Davis, seconded by Mr. Konold that the request be granted and the school admitted on a fee lance basis. Carried.

California Junior Republic

Because the California Junior Republic is an Institution supported mainly by the Community Charters, the monies needed cannot be appropriated from the general fund of the C. I. F. Southern Section to pay their annual dues. Mr. Konold seconded the motion and it carried. Rule (2), Article XIII, page 24 of our 1945 Blue Book A letter was presented to the Executive Committee from Mr. L. Frank Kellogg, Vice-Principal of the Anaheim High School citing certain objections to rule (2), Article XIII, page 24, of our 1945 Blue Book. It was pointed out by Mr. Hamilton that this rule was enacted to prevent a Class B boy from playing Class B football on Thursday and then participating in a Class A game on Friday of the same week. This was not an uncommon practice prior to enactment of the rule. The rule has been what it was planned for it. It has corrected the above evil.

There being no objection, the Chairman directed the Secretary to copy the letter to Mr. Kellogg inviting him to the next meeting of the Executive Committee in order to discuss any needed change in the rule.

Basketball Tournament Suggestion

A letter was presented from Lee Mosteller, basketball coach at the Huntington Beach High School recommending that at the close of each basketball season we hold a basketball tournament in which all of the schools of the C. I. F. Southern Section might take part if they wished to do so. He gave as another reason for the Great Olallie Games get from tournament play.

It was the opinion of the members of the Executive Committee that a tournament including all teams of the C. I. F. Southern Section would prolong the basketball season to such a point that other spring sports would be handicapped.

Council Expenses

A question of how much expense should be paid to Council Members who attend Council
