SOUTHERN SECTION AWARDED FINALS CIF STATE WRESTLING CHAMPIONSHIPS AT CAL POLY

SPECIAL — If you're an advocate of prep wrestling, now's the time to make your plans for the 1976 State CIF Championships.

It has just been learned that the CIF Southern Section has been awarded the host role for the 1975-76 season championships, the initial such bid since the State championship concept was undertaken three years back. Cal State University at Hayward hosted the finales in '73 and '74, with Bakersfield Community College the site this past season.

Cal Poly at Pomona, a 5,000-seat facility, will provide the setting, billed for the weekend of March 5-6. Serving as Meet Director will be Paul Breit of Edgewood High School, who will be assisted by the San Gabriel Valley Athletic Directors Association.

The State Championships bring together the top performers from the 10 member Sections, representing the Central, Central Coast, Los Angeles City, North Coast, Northern, Oakland, San Joaquin, San Diego, San Francisco and host Southern areas. In all, 300-plus wrestlers are entered in the two-day finales, with the Southern Section being allocated the largest number of entrants per weight class (five). It should be noted that the Southern Section will have 381 member schools next year, with the North Coast Section's 143 tally the next in line.

Clovis H.S. has captured the last two team titles, with Monte Vista H.S. of San Diego claiming the inaugural affair in 1973. Top finish by a Southern Section school this past campaign was a 10th place berth by Dos Pueblos H.S.

Tentative plans call for the prelims to begin at noon on March 5th and to continue until 10 p.m. that evening. Action will resume at 10 a.m. Saturday, March 6th, with the championships in each of the 13-weight divisions set for 7:30 that evening.

In the Northern Area Gene Hartley, principal of San Marcos H.S., has been re-elected to a four-year term.

THE 'FLOW' KEY TO 'CHANNELS'

The purpose of communication is to transmit information. If those intended to receive the information are not able to do so, the purpose is not being served, and the effort expended is wasted. All too often such is the case.

One-to-one communication is the ideal; it provides maximum opportunity for reception together with minimum chance of misinterpretation. Unfortunately, it is usually neither possible nor practical to employ one-to-one communication to a significant degree within an organization. And the larger the organization and the longer the communication channels, the greater the chance that the information will not be received or will not be received correctly.

We in the CIF-Southern Section share a communication problem with virtually all other organizations. Important information does not find its way to all intended recipients. With a total membership of over 450 schools, including approximately 1,000 administrators, 5,000 coaches, and 200,000 athletes, there will probably always be those who, for one reason or another, "don't get the word."

We mustn't, however, relax our efforts to get the word through to all concerned administrators, athletic directors, and coaches all have a responsibility to see that those for whom they have interscholastic athletic responsibility receive all information relevant to their participation and eligibility. We all share a common responsibility to continue the flow of information and to see that its passage is uninterrupted and unimpeded.

What then can an individual school do to insure optimum communication (Continued on Page Eight)

FOOTBALL 'DEAD PERIOD' FOR MEMBER SCHOOLS ELIMINATED IN 1975

Effective the upcoming 1975 season, the "dead period" in football has been eliminated by action of the CIF Southern Section Council.

The "dead period," which restricted contact between football coaches and potential team members from August 17 through 24 is now lifted and coaches may operate under the normal summer football activity as stated in the "Red Book."

Background for elimination of the period came from several school districts conducting, or desiring to run summer school during the "dead period" which could involve potential team members of football teams and coaches.

However, coaches should take note that the conditioning period (August 25 through 29) will remain as set forth in the sports regulations for football in the "Red Book."

It is permissible (not mandatory) for high school coaches to conduct the physical conditioning program, but football shoes will be the only equipment permitted.

No member school may begin organized football practice in the fall earlier than the Tuesday following Labor Day (September 2 for the 1975 season).

OPTIONAL ONE-PIECE WRESTLING UNIFORM IS APPROVED

If you're a wrestling coach and in the market for new uniforms, then there's another option to consider before placing your order for the 1975-76 season.

At the State CIF Federated Council meeting in January, it was the decision of the Council to permit Sections throughout the State the optional use of a properly cut one-piece uniform. The new optional uniform could be worn without full-length tights, effective the upcoming 1975-76 campaign. The one-piece uniform must meet all the requirements listed for the shirt and must also have a minimum of a four-inch inseam with close fitting at the legs.

The CIF Southern Section has approved the optional use of the new uniform at its most recent Executive Committee meeting. It was also the consensus of the Southern Section wrestling coaches that the adoption of this uniform would be of budgetary benefit to the high school athletic programs.

In addition, the State CIF Commissioner is to recommend to the National Federation that such a change (one-piece uniform) be incorporated into the National Federation Wrestling Rules.

PENALTY KICK FOR TOURNAMENT PLAY

RULES' CHANGE FOR SOCCER OVERTIMES

Thanks to a National Federation Soccer rule change for the 1975-76 season, it appears Corona and Ontario Christian high schools have one of their CIF Southern Section records safely intact.

That rule change deals with teams entered in tournament progression, which now states that "tournament games tied after a maximum of four overtimes, will be decided by penalty kicks."

Earlier this year, the two teams went a record 21 (that's right, 21) overtimes before deciding their match in the Damien High School Invitational. Just for the record, Corona won that three-hour plus marathon, 2-1.

Other rule changes, which will be published in the National Federation Soccer Rules Book the fall of 1975, are:

1 — Clarifies penalty-kick arc with a 10-yard radius from the center of the penalty-line kick.

2 — Specifies when a player is cautioned, only he may be replaced and then the opposing team may substitute a like number.

3 — Provides beginning in 1978, four inch numbers on the front of the uniform (jersey or shorts) will be required.

4 — Prohibits the use of metal or metal-tipped cleats on soccer shoes.

5 — Specifies the referee's jurisdiction begins when he enters the field of play.

6 — Explains the procedure to be followed by the referee for cautioning or disqualifying a coach or player.

LINEUP ENTRY ONE AREA

ONLY MINOR CHANGES IN BASKETBALL RULES

If you're a basketball coach and looking ahead to the 1975-76 campaign there are only minor changes in the National Federation rulebook for next season.

7 — Defines a fair charge as one in which a player makes shoulder contact with his opponent with his arms and elbows close to the body and the ball within playing distance of each other.

8 — Clarifies, if a player taking a free kick, kicks the ball directly into his own goal, a corner kick shall be awarded the opponent and no score is counted.

The 1975 Rule Book will also include brief explanations of officiating mechanics and techniques approved by the rules committee.

Each soccer coach of member CIF Southern Section schools will be sent a copy of the new rule book when published.

SPORTS CLINICS SET FOR CIF-SS COACHES

Keeping pace with the latest in techniques, strategy, and rule changes have moved front-and-center for the women coaches in the CIF Southern Section, with the advent and growth of the girls' sports program.

And though a lack of clinics and workshops have proven to be stumbling blocks for professional growth, there appears to be a major breakthrough in the offing by California State University at Long Beach.

This summer, CSULB will conduct a series of women's coaching clinics, covering the areas of volleyball, track and field, basketball, gymnastics, self defense, soccer and flag football.

The series of clinics are being offered for graduate credit and coaches may enroll for two individual clinics per week.

BARBARA WILSON S.S. REPRESENTATIVE

COACHES REPRESENTED AT STATE CIF LEVEL

Communication and representation are important facets in the rapidly spawning girls' sports program of the CIF Southern Section but one of the most often overlooked and uninformed area is that of the CIF State Federated Council.

A Girls' Advisory Committee at the CIF State Federated Council level is one representing the coaches of girls' sports and has been providing input at the State Council meetings over the past year.

The Girls' Advisory Committee is

composed of 10 women representing high school girls' athletics, one from each of the 10 Sections in the State.

Barbara Wilson, Girls' Athletic Director at Beverly Hills H.S., is currently serving in that capacity from the Southern Section, elected to the post by the CIF-SS Executive Committee.

In order to properly reflect the ideas of the CIF-SS coaches, Wilson has been in attendance at virtually all Sport Committee meetings, as well as those involving officiating, relegating and the like.

Coaches desiring to discuss issues, ideas, or new trends in the field of girls' athletics, are encouraged to contact Barbara Wilson, YOUR direct link between the Southern Section and the CIF State Federated Council.

NATIONAL FEDERATION DRAWS SUPPORT OF CIF SOUTHERN SECTION

Over the past year, the CIF State Federated Council has studied the question of playing rules for girls' interscholastic athletic contests.

At the May 1 meeting of the CIF Southern Section Council, the member schools directed their representatives to support the adoption of National Federation Rules for women, effective the 1976-77 school term.

If passed at the June 6-7 meeting, the rules would apply to those girls' sports where National Federation Rules are published: currently the list includes basketball, gymnastics, swimming and diving, track and field, and volleyball.

The arguments presented in support of the National Federation Rules were prepared by Margaret Davis, Administrative Assistant of the CIF Southern Section Office. Support for DGWS Rules were prepared by Dr. Karen Johnson, California GWS Chairperson and of California State University at Los Angeles.

COUNCIL RESOLUTION SUPPORTS REPRESENTATION

Following recommendation of the Women's Representation Committee, the CIF Southern Section Council at its May 1 meeting passed a resolution supporting and encouraging the concept that representation at all league meetings shall include one woman, representing girls' athletics, from each league school.

The action was directed that league representatives would thus be fully informed and reflect problems relating to girls' athletics.

PERFECT SEASON — Coach Joan Edwards (far right) and her Santa Maria High School Saints proudly display CIF-SS trophy and individual plaques after winning the 3A basketball title and perfect 15-0 season.

SANTA MARIA, SANTIAGO CAPTURE HONORS

Santa Maria and Santiago high schools reign as the respective 3A and 4A basketball champions for the 1975 season in the CIF Southern Section, marking the initial year the girls' post-season playoffs have been divided into two divisions.

Each club battled through a 32-team playoff bracket for their respective honors, but it was a far cry from the '74 version that saw the finals played at a high school site. This year's finales were staged before a crowd of 2,300 fans at Cal State University at Fullerton. However, it should not go without mention that the 4A title game was video-taped by KNBC TV and shown back to a large viewing audience during prime time a week later.

Santa Maria posted a 36-33 decision over Valley Christian for the 3A title, making up for a lack of height with picture-perfect fast break and some fine shooting from the outside. Just one year back the Saints gained a "free lance" berth in the playoffs and dropped a 55-52 outing to Buena. However, it appears to be nothing but a bright future for Coach Joan Edwards and her Saints as four of the five starters return next season!

As for Santiago, it was a simple case of making the "wait 'til next year" adage come true. Santiago captured the 4A title with a 42-33 victory over Alemany as the Cavaliers made amends for last season then they dropped a 39-32 decision to Mira Costa in the championship finale. Not only did the Cavaliers complete the season with an impressive 23-1 record, but avenged their only setback, that to Alemany in the opening game of the season.

TOP LAURELS — Santiago High School, with coach Judy Loundagin (far left) and principal George Gill (back row right) claimed 4A CIF Southern Section basketball honors with impressive 23-1 record.
