VOLLEYBALL ASSN. GROWS; ADDITIONAL TEAMS Sought

The Southern California High School Volleyball Association has grown threefold, and is out looking for additional teams to join.

The association began activity under the direction of Mike Popko at Inglewood High a year ago with 12 teams. So successful and well-received was the program that the 1973 season will start with 37 teams at least.

Volleyball for boys will be the next approved sport in the CIF, SS, if the Southern California Athletic Directors meet in May. New volleyball rules in effect this fall will provide that the CIF, SS is working with the association closely, just as it did a decade ago when the CIF approved the sport and got it organized.

The season will begin in mid-March, after the basketball playoffs are completed, and wind up with a championship tournament involving the top teams in May. In this way, the association is seeking new members.

Here are the current members: Orange County
- Corona del Mar
- Laguna Beach
- Newport Harbor
- Edison
- Fountain Valley
- Huntington Beach
- Orange
- Westminster

San Diego County (two leagues)
- La Jolla (San Diego League)
- La Jolla (La Jolla League)
- Coronado
- Santee
- Shadow Mountain
- La Jolla
- North Torrance
- Ramon Ranch

San Fernando Valley/Northern area
- Chaminade
- San Fernando Valley Christian
- Xavier

San Gabriel Valley
- Arcadia
- Muir
- South Pasadena

Los Angeles County
- Palisades
- University
- Granada
- Gardena

The association has 25 members, and like to gain new members for a San Gabriel Valley area league.

By the way, the association is now

It was also agreed to consider the possibility of a Sunset League being added to the CIF, SS, as a conference for the purpose of listing in the CIF competition, provided such a conference was formed and accepted by the Council.

The sixth annual Prep Sports Writers conference was staged October 14 at Pioneer High School.

Each year, the CIF, SS office staff presents a program directed at the high school journalism student. It is an explanation of how the CIF, SS is operated and of what services it performs for the schools.

The theme of "The CIF Story" is also shown, and a guest keynote speaker from the Southland media highlights the Saturday morning proceedings.

This year's featured talk was presented by Ross Porter, Sports Director at KNBC Channel 4.

This year's added attraction was the US-California football game, which student and journalism advisors attending viewed at the L.A. Coliseum.

 Illegal Track Shoe

The National Federation has recently received an inquiry concerning the legality of a high jumping shoe manufactured by the Adiash Shoe Company of Los Angeles. A copy of "Catapult" and is sold singly. That is, it is designed specifically for the jumper's take off and one for each jumper.

The Adidas Catapult does not meet the requirements of the National Alliance rule. The shoe is, therefore, illegal. Most directors will want to examine the jumping shoes to be certain they meet the standards as described in Article 10-1-7 (3). The cover- age is exact in specifying that com- petitors may not wear a shoe of which there is no single or inner sole having an overall thickness in excess of 1/8 inch including the sheets or ridges. The sole and inner sole of the Adidas Catapult measures 11/16 inch (20 mm) and therefore, does not comply with the rule.

by the council members and the com- ments made.

"Steve Milrich does a superb job of running the meeting and Ken Pagana was very pointed in fielding all questions and making explanations. The entire staff operated as a well-organized session," he summed up.

Dr. Woods has a vital interest in athletes, and activities of high school students in general. He views closer controls in some areas and the establishment of more cultural activity in other areas in the off-season as two possible positive areas of consideration.

Basketball computer service offers five games free

A new basketball statistical service called "Sport/Stat" has recently been offered by the CIF, SS office. The developer of the CIF/SS service is System Development Corp., Santa Monica.

Representatives of Sport/Stat were invited to the Southern California Fall Clinic in September at Santa Barbara Island College. Two presentations were made. The one to the entire group att- ending and another at the SCBCA league meetings. Recreation of the Sport/Stat plan for servicing of the CIF, SS basketball in 1972-73 season was positive.

All those in attendance at the Clinic received a sample set of statistics. Coaches interested in exactly what Sport/Stat has to offer, should contact their SCBCA league representative or write to System Development Corp., Atm. Sport/Stat Service 2501 Wilshire Blvd., Santa Monica, Ca. 90406.

The most interesting feature of the Sport/Stat plan is its free five-game service. There are numerous forms of statistical plans have been considered for the CIF, SS before, but cost factors associated with the initial computer program design have been deterrents. The free-trial offer of Sport/Stat has eliminated this high cost, affording the opportunity of testing a new statistical system at no cost.

Dr. Woods was invited to all school's basketball teams, varsity, JV, Soph, etc.

Schools wishing to continue beyond the free trial period must do so for a cost of $3 per game, a reasonable charge for this type of service.

Sport/Stat roar must be completed and returned to Nov. 1. Rosters for teams must be listed in the same order as the CIF, SS form. Schools needing the Sport/Stat package should write to David B. Byrd, Manager, Sport/Stat representative at (213) 675-3110. They will receive a material package from the CIF, SS, is encouraged to partici- pate in the Sport/Stat program of the CIF, SS.
