The Responsibility Is Ours

The CIF-Southern Section Blue Book does not include all aspects of those good practices, codes of ethics, etc., that should be adhered to in the conduct of our programs.

There appears to be among some, the idea that if CIF, Southern Section or National Federation rules, do not specifically prohibit a course of action, that such action is therefore legitimate. This simplified attitude is particularly dangerous in the opinion of this office when it involves the health and safety of the young people committed to our care.

For example, nowhere in the Blue Book is there a specific rule indicating that youngsters should not be intimidated into playing when serious illness should preclude same; nowhere specifically in our rules is there a restriction that would prohibit a youngster from pitching three full baseball games on consecutive days; or nowhere specifically is there in our bylaws a rule which would prohibit a 98 pound, 13 year old freshman from engaging in head on tackling practice at 30 yards with a 230 pound, 18 year old all-CIF fullback.

I point out these admittedly crude examples to stress the point that principals, administrators of athletic programs and coaches have a very real responsibility which transcends any set of regulations constructed by the league, the Southern Section, the State, or National governing bodies, and that is to exercise the most careful judgment in limiting those actions which most reasonable people would agree are dangerous to the health and safety of young people.

Those individuals who would plead such excuses as "Well, other people are doing it," or "I didn't see anything in the Blue Book against it," are missing the entire point of this article, and that is the over-riding consideration that we as educators must maintain is for the health and safety of those young people given to our care.

Having recently worked in close cooperation with the State and Southern Section Athletic Injuries Committees, (Continued on Page 16)

THIRD CONSECUTIVE TITLE FOR FILLMORE

SAN GORGONIO, EDGEWOOD, SAN MARINO, FILLMORE CROWNED 1977 BASEBALL CHAMPS

San Gorgonio High, which tied for second place in the Citrus Belt League, got excellent pitching from Tim Miner, who allowed only two hits, to capture the 4A championship with a 1-0 victory over Lakewood before 7,723 at Anaheim Stadium.

The Spartans scored the game's only run in the first inning when Ted Rozzi hit a leadoff double and Larry Kelly doubled off the left field fence.

In the 3A final, pitcher Mike Pill closed a brilliant three-year career with a two-hitter, as Edgewood nipped Magnolia 3-1. Pill finished the year with a 14-0 record and his career with a 33-3 record.

San Marino won its first CIF-SS 2A title downing Glenn 4-1 before a standing room only crowd at Quigley Park in City of Commerce. It was the first appearance in a championship game for both teams.

Designated hitter Bill Decker supplied all the runs the Rio Hondo League champions needed with a two-run double in the second inning. San Marino finished with a 25-3 record.

Fillmore pitcher Rick Steward capped a brilliant four-year career pitching a no-hitter in a 5-0 win over Webb as the Flashes won their third straight CIF-SS 1A baseball championship.

PRESS FACILITIES ARE FOR THE PRESS

School officials are reminded that first priority in press boxes and other press facilities at interscholastic athletic events must go to working members of the press. These men and women have an important job to do and by helping them you can help your school. The media can be a strong influence on the success and exposure of our athletic programs, and they should be accommodated as much as possible. In the recent football season several instances of relegating the press to second rate facilities in favor of faculty, board members, and friends were reported.

DAY OF TRIBUTE TO COACHES

According to a resolution to the United States House of Representatives, OCTOBER 7 will be the day to show special tribute to the coaches across the entire United States.

We would urge all member schools to stage some sort of program to acknowledge "NATIONAL COACHES DAY" in recognition of their respective coaching staffs. Perhaps your plans can be made to include your student body, administration and community.

MEDICAL COMMENT:

TETANUS PROTECTION IMPORTANT

(A comment by the Committee on the Medical Aspects of Sports of the American Medical Association and the National Federation.)

Routine active immunization against tetanus is now recommended for all persons, but is especially important for the athlete. Tetanus, also called "lock-jaw", is caused by a germ which usually invades the body through wounds. The athlete, particularly in body contact sports, has greater exposure to injury and consequently a greater wound potential. Once within the body, the tetanus germ multiplies and produces a potent toxin that affects the nervous system to produce muscle spasm, especially of the jaws, neck and back muscles. When severe, generalized convulsions are common. The incubation period, or the time interval for the germs to produce the toxin, and its subsequent attack on the nervous system to cause "lockjaw", averages approximately one to three weeks. Though excellent preventive treatment is readily

CHECKLIST IDEAL METHOD OF BEING ORGANIZED FOR NEW SCHOOL YEAR

Don't risk the chance of overlooking a few key items to the start of a new school term . . .

Often times the initial week of a new school year is a hectic one, with faculty meetings, practice sessions for the fall sports and a rash of paperwork the usual order of the day.

Possibly one method of making certain no item is bypassed is one of developing a checklist, with the following areas among those to be considered:

1—Make certain all transfer students are approved in terms of residence and scholastic eligibility before being permitted to participate in practice.

2—Call an early meeting of the entire coaching staff and discuss carefully the 1977-78 CIF-SS Blue Book Rules and Regulations.

3—Compile an accurate eligibility list for each sport and give a copy to each member of the faculty and administration.

4—Develop a set of plans with all the coaches to keep accurate records of player participation by specific sport.

5—Check all athletic contracts. Send a form letter with time, place and date of games to all schools on your sched-

ule with request that you be notified immediately if opponent's record differs from yours. This may seem like double work, but many schools change coaches, athletic directors and administrations each year and at times, contracts are misplaced.

6—Make certain to contact your local Media (newspaper and radio), giving them updated copy of all your schedules, rosters and names of coaches and their home phone numbers. Remember, they sell your athletic program FREE!

7—Consider scheduling one or two good assembly programs built around the theme of good sportsmanship. You might even consider an exchange assembly with a neighboring school.

8—Designate one person from your school to contact the CIF Southern Section Office when questions occur. Many times a duplication in calls are made.

9—Take extra measures that a planned program is established for the care and prevention of athletic injuries. Post a list of all emergency numbers and the steps to follow if a situation does arise.

Start the new year off by being prepared!
