FUND RAISING/SPORTS MARKETING SYMPOSIUM

October 10th is an important day for CIF Southern Section schools. That is the date for the Fund Raising and Sports Marketing Symposium for Athletic Administrators and Booster Club Presidents. This event, which is jointly sponsored by the CIF Southern Section and the Boosters Clubs of America will be held from 7:00 - 11:30 a.m. at the Anaheim Convention Center. There will be presentations on a wide variety of topics, including: how to increase attendance at sporting events; putting together fund raisers that work; and getting involved with community groups. The day will also include special presentations on thirty or more fund raising activities such as auctions, car raffles, bingos, jog-a-thons, carnivals, roasts, golf tournaments, vending items and many more.

We extend an invitation for you to join us for this informative symposium. Registration is only $5.00 per person. Registration forms will be mailed to all principals. Don’t miss out, contact your principal for further information.

ELIGIBILITY MADE EASIER

In an effort to further extend its services and assist with the daily administrative tasks of the member schools, the CIF Southern Section Office has developed what it believes to be a virtually foolproof “Eligibility and Transfer Card.”

The card is being made available to all member schools as part of the fall distribution packet and is the result of two years of screening and analyzing eligibility calls to the CIF Southern Section Office.

“We’ve found a pattern in the type of call we receive and have designed two cards for use by the member schools,” said Commissioner Ray Plutko.

“One card is to be processed for all incoming ninth graders and will remain on file for his/her entire four years in school, while the other is to be applied to transfer students only.

“There are a different series of questions which apply to each card and if the card is filled out completely before the student is permitted to participate each grading period, it should virtually eliminate all chances of the student being declared ineligible at a later date,” added Commissioner Plutko.

There is another use for the card and hopefully, the member schools will take advantage of the added intent.

Upon graduation, the cards now serve as an instant “Alumni File” and (Continued on page 20.)

PRIME TIME T.V. FOR THE CIF SOUTHERN SECTION

Following months of negotiations, Commissioner Ray Plutko has signed a major television package on behalf of the CIF Southern Section with Sports Productions, Inc. of Dallas.

The contract extends over a three-year period and will guarantee the CIF $38,000 a minimum of $25,000 the first year, $28,750 the second year and $33,063 the third calendar year.

Additionally, the CIF Southern Section will receive a graduated 10, 12 and 15 per cent of the net revenues derived from advertising.

“This is something we have been working on for some time,” said an elated Commissioner Plutko.

“By this means, we will have the capability to reach millions of individuals in the communities who would otherwise not come in contact with the high school programs and the positive values they create.”

The contract will be effective with the upcoming 1983-84 school term and calls for three major, prime time telecasts. Scheduled are the Big Five championship football game from Anaheim Stadium on December 9; the Girls’ 4A Basketball championship game from the Los Angeles Sports Arena on March 1; and the Boys’ 4A basketball championship game from the Los Angeles Sports Arena on March 3.

Under terms of the contract, the CIF Southern Section will also be granted free advertising spots during the telecasts to further promote its programs.

SCHEDULE CHANGES

The CIF-Southern Section and the Assignment Coordinators have growing concerns about the increasing amount of changes being made by schools after they have mailed their finalized schedule to assigns.

As an independent contractor, the official is asked to sign a contract to appear at a game site at a specific date, time and place. It is the common practice or rule that once a date is booked, the official will not seek a better paying or more prestigious opportunity to officiate. He/she is locked into the initially committed date. He/she notifies all coordinators and college commissioners of his/her booked dates and, therefore, is not considered for last minute cancellations from same.

We feel that when schools change a scheduled contest, the official is being deprived of an opportunity and thus penalized on that day and if already booked on the rescheduled day, loses out on the assignment altogether. Therefore, the following rules have been made:
The officials have made

arrangements to get off work or have someone work in their place.

MEET THE NEW EXECUTIVE COMMITTEE MEMBERS

We are pleased to introduce the three educators who are the new additions to the roster of the CIF-SS Executive Committee.

Cynthia Grennan will replace Maury Ross as Superintendents’ Representative on the Executive Committee. Grennan is currently the Superintendent of the Anaheim Union High School District where she has been employed since 1964. Her previous positions include those of director of guidance, counselor- psychologist, assistant principal, principal and assistant superintendent. Grennan was selected in 1980 for the “Who’s Who in American Women” publication.

Thomas Jacobson will represent the Orange County area in place of the retiring H.L. Looney on the Executive Committee. Jacobson has had extensive experience with CIF-SS, teaching and coaching basketball and baseball at Glendora High School from 1960 to 1964, as well as teaching and counseling at Corona del Mar High School from 1964 to 1971. He was named Assistant Principal at Costa Mesa High School in 1971 and in 1976 moved to Newport Harbor High School as Principal. Jacobson is married and has two children ages 21 and 23. Another new addition to the Executive Committee is Michael Moropoulos who will replace Clyde Francisco and represent Boys’ Athletic Directors. He began his educational career at Santa Barbara High School in 1953 as a teacher of biology and history, and has since coached your pass football, basketball, swimming and golf. He was named Athletic Director in 1965 and has continued in that position to the present time.

Moropoulos has served on the CIF-SS Football Advisory Committee, the Athletic Directors Advisory Committee, is a member of the California State Athletic Directors Association, the Southern California Interscholastic Football Coaches Association, and was named Athletic Director of the Year by the California State Athletic Directors Association in 1980. When he has time, Moropoulos goes fishing, boating, hunting and scuba diving. His hobby of woodworking, custom fishing rods has become somewhat of a business. Moropoulos is married and has two children.

The CIF-Southern Section Executive Committee is the administrative body of the Southern Section. Responsibility for enforcing all rules and regulations is the responsibility of the assigned officials. Enforcement of rules and regulations approved by the council of the CIF Southern Section, and the consideration of all questions related to a violation of such rules and regulations.

We extend our welcome to all three new members and express our appreciation for their willingness to devote their time to furthering CIF Southern Section High School activities.

SCHEDULE CHANGES

We have scarcely enough officials to go around in some sports and this financial loss will, and has, only acted as a further deterrent to become or continue to be an official. As a comparison for you to note, in one area, the sport of basketball, there were for changes made (190 contest — 2 officials each) after the Master Schedule had been printed. As you will agree, this is no small task and in fact has created hardships for many of those involved. Changes caused by rain, snow, and other weather conditions usually cannot be avoided. But with proper planning, other problems can be anticipated and problems avoided. As you will observe, all assignments to the original schedule, many associations are currently enforcing penalties on officials for cancellations and/or no shows. It is also important that schedules be submitted by schools for the accurate schedule to their assigns. After the Master Schedule is mailed, no change request will be allowed. As for the “Make-up Games” included in the schedule, there may be no change requested from the schedules made by the commissioners. It is important to keep the original schedule as accurate schedule to their assigns. After the Master Schedule is mailed, no change request will be allowed. As for the “Make-up Games” included in the schedule, there may be no change requested from the schedules made by the commissioners.

CHECK THESE SAT TEST DATES

High School students participating in interscholastic activities often find conflicts between CIF-SS events and college test dates. Students can find a date that avoids interscholastic events if they arrange to take the test on those dates which do not conflict.

School counselors and principals are urged to call the attention of high school students to test dates and schedules of CIF-SS events contained in the Southern Section Calendar so that test dates can be selected to avoid conflicts.

Mark these dates down:

lack of sensitivity to a vital phase of the educational base afforded on the school campuses each day. Rather than reiterate the documented values compiled from recent studies in the fields of physical education and extra-curricular activities, there is yet another, more critical, point.

Unless we are willing to pioneer new and innovative means of communication with the public sector, our efforts and role in education will continue to be taken for granted. Collectively, we influence nearly 210,000 student/athletes in the CIF Southern Section alone. They are gifted students in the true educational sense and their achievements more than kindle our professional challenges.

I wonder what would happen if we took our quest for granted.

Evidently, at least one other Commissioner has already done so and it comes at a time when education finally has caught the attention of the public sector nationwide.

The opportunity is indeed golden. The only question remaining is, “Will we take it for granted?”

with numerous schools starting association groups with former students, in particular, those involved in interscholastic activities, half of the work is already completed.

In distribution this first year, schools will receive a supply to cover all four grades, based upon a 45 per cent participation of the student body. Following this year, a supply will be in each fall packet and pertain to 45 per cent of the incoming freshman class. Each school will also receive a supply for transfer students.

"It’s strictly a voluntary program on the part of each school, but one which we believe will assist all athletic administrators," assessed Commissioner Plutko.

"By this means, we will also prevent other students from being penalized due to an ineligible player which could cost the team from taking part in the post-season playoffs and that is always a key concern on all our parts."

It’s an added extension of the services provided by the CIF Southern Section Office and a welcome one expressed by those members previewing the cards this past summer.
