liaisons, new assignment process in place section-wide for 1989-90

the process by which sports officials are assigned in the CIF southern sec-
which includes the employment of 10 area "liaisons" who will be assigned
operational on a section-wide basis with the opening of the 1989-90 school
the new process, which was initiated in the orange county area as a pilot
program during the 1987-88 school year, was expanded last year to involve
approximately half of the CIFS-affiliated membership. the final stage of this
project is expected to incorporate the section membership as a whole into the
process by next spring.

"After extensive review and to esculcification, the section liaison concept for adminis-
trating the coordination of officials' assignments is working well," states CIFS-CSSF Commissioner of Athletics Sports, "we feel pleased to an-
nounce that it is one-hundred percent in place for the new school year."

The basic concept of the program is for the area liaison to provide interfacing
between member schools and the local officials' associations. the liaison will
be responsible for coordinating the section offices and the CIFS-CSSF Office,
who oversees official assignments.

"The key to the program is to provide the schools and officials' associa-
tions with a system that will allow them to con-
duct their daily business and solve their problems locally," continued the Commissioner. "this channel for specific inquiries and inform-
ation dealing with officiating for both pro-
visions of the rule 214 SEC
tions and the lineup of the team members.

From the officials' point of view, the new process provides an opportunity for
their officials to work together independently,
by whatever process they think is workable
and efficient. It will also place an emphasis on the
associations to develop an improved evalua-
tion process, in order to provide the best possible service for schools in their
area.

"Officiating is a major component of any athletic program and is tremendously
important to our organization," states Thomas. "We will constantly be involved in
listening to the officials and our relations with the various associations,
to help recruit new officials for their membership, to provide them with our
instructions and to insure that our schools are in concert with their efforts.

The bottom line is that we are all

working together with the best interest of our student-athletes in mind."

It is imperative for both the schools and the officials' associations to remember that the liaison is not an
assigner. Rather, he or she is charged with the responsibility of collecting the
athletic schedules of schools in his or her area, along with coordinating, com-
municating and conducting the business of sports officiating.

"We are pleased with the people who have been assigned to the important position," added Thomas. "We think that each has a strong
background in the combined fields of officiating and sports management, as well as a solid understanding of the rules and structure of the CIF Southern Section."

Listed below are the CIFS Southern Section area officiating liaisons for the 1989-90 school year.

SAAGAU NAMED NATIONAL FEDERATION PRESIDENT

Bernie Saggau, long-time executive secretary of the Iowa High School Athletic Association, has been named president of the National Federation of State High School Associations for the 1989-90 school year.

In addition, Joe A. Haynes, deputy superintendent for operations of the Jackson Public Schools in Jackson, Mississippi, was elected vice-president for 1989-90. Saggau and Haynes were selected by the National Federation Executive Committee at its July meeting in Wesley Chapel, Florida.

The National Federation Council also elected three new members—two section representatives and the other an at-large—to the 12-member Executive Committee.

The new Executive Committee members elected to three-year terms are Richard F. Neal, executive director of the Massachusetts Interscholastic Athletic Association; Budie M. Marshall, director of the Texas University Interscholastic League, and Larry Hudson, superintendent of the Lucille School District in Lewiston, Arkansas.

Saggau, who is in his final year of a three-year term on the Executive Committee, is the 30th president of the National Federation. He succeeds Ross Black, superintendent of the Lovington Municipal Schools in Lovington, New Mexico.

Representing Section 4, Saggau has represented the Iowa High School Athletic Association since October 1963, the past 22 years as executive secretary.

GRID PLAYOFFS ‘89: SPLIT-SCHEDULE FOR SEMIS

The CIF Southern Section, in a continued effort to enhance and improve the interest and exposure of its post-season championship events, will put into effect a pilot semifinal-round schedule staggerer for the upcoming 1989 Southern Section CIF/Reebok/Jack-In-The-Box Football Playoffs. The experimental adjustment will take effect in the Division-I through-V semifinals, establishing a predetermined schedule, in which one of the games will be conducted on Friday, Dec. 1 and the other on Saturday, Dec. 2. The Friday-Saturday schedule will be determined by coin flip between the upper and lower bracket playoff entries and conducted on football playoff pairing day (Sunday, Nov. 12). The schedule will be incorporated into the official divisional playoff draw sheets.

The intent of the stagger is to provide Southern Section football fans with the opportunity to see both games leading to the championship final; allow schools a better opportunity to secure improved sites for the big games; and give each contest greater exposure through increased media coverage.

Into the Record Book...
Senior quarterback Tim Gutierrez of Universal Santa Clara, who set a state record for completion percentage (73.1%) as a junior, has moved among the Southern Section’s top 10 quarterbacks of all-time in career passing yards. Gutierrez hopes to lead his Saints into the Southern Section CIF/Reebok/Jack-In-The-Box Playoffs, scheduled to open on Friday, Nov. 17.
