PRESIDENT'S MESSAGE

By Dr. Gary Smidokers, President CIFS-SS Executive Committee

Someone has wisely said “the doors of opportunity are marked, push!” Certain events in CIFS Southern Section have given rise to the opportunity to make some changes in section operations and the Executive Committee has decided to “PUSH” forward. This will mean increasing office efficiencies and creating new lines of communication with the Executive Committee.

The newly appointed Finance Committee, under the leadership of section Treasurer Tom Triggs, has worked with Commissioner Crowley and the other administrators in the formation of these new operational strategies and procedures. The first outcome of their work has been a reorganization of office operations. Administrative and management tasks have been realigned to reduce staff. It is believed that, due to the fine office staff, these changes will not negatively impact section operations and that the same high standards of organization service will continue unabated.

In addition, new guidelines have been established related to operational expenses and reporting. In this area, credit card usage will be closely monitored by the administrator committee. Beyond this, more detailed financial reports will be presented regularly to the Executive Committee. These will enable committee members to be more aware of the financial activities of the section and be responsible to budget issues.

We believe the steps taken will ensure the further stability and growth of Southern Section. Our section has a tradition of leadership in sports management throughout the state, as well as the nation, and we believe these changes will serve to further this reputation.

Crowley, 56, has been with the Southern Section as a Vice President since 1985. He was named Associate Commissioner five years ago. “I am pleased to be at the helm for the rest of the year,” Crowley said. “I look forward to directing the staff, which will continue to be committed to our sports programs.

In addition to his duties at the Southern Section, Crowley also is very active in NCAA football as a Medical Division III women’s basketball as the Supervisor of Officials for the West Coast Conference. He will continue to manage the sport commissions, including football, basketball, and track & field, in addition to his new duties as commissioner.

Due to a hiring freeze, Crowley’s position as Associate Commissioner will not be filled. At the end of the school year, the Executive Committee will fill any vacant commissioner position along with the structure of the office and make any necessary changes in accordance with the strategic planning of the entire state.

Congratulations to Dean and good luck!

COMMISSIONER’S CORNER

By Dean Crowley

Acting Commissioner of Athletics

To say the least, the CIF Southern Section has come in a long way in the last 11 years to become a recognized leader in California high school athletics. However, it is my belief that we have our work cut out for us if we are to maintain the true value of high school athletics for our students and communities we serve.

We must focus our efforts on the principles of good sportsmanship, ethical behavior and integrity. Jack Roberts, Executive Director of the Michigan High School Activities Association said it best when he stated, “Good sportsmanship is the essence of what we are all about in interscholastic athletics.”

School administrators must assume the leadership role in establishing the importance of good sportsmanship. There is little doubt the quality of sportsmanship and behavior displayed at athletic events reflects the leadership provided by the administrative staff.

No doubt one of the most difficult tasks for a school administrator is to make sure the coach is providing the necessary leadership for athletes and the student body. The coach has more influence on the sportsmanship of our students than any other individual. It is important that coaches demonstrate and apply leadership, integrity, responsibility and sportsmanship at all times both on and off the playing field/court.

If we wish to have our athletic programs continue as educational tools, all involved must acknowledge the fact that high school sports are not on the same level as college or professional sports. A proper perspective must be maintained if the potential educational values of athletic competition are to be realized. Good sportsmanship is concerned with the behavior of all involved in the game.

The coaches, players and fans that we, as administrators, are constantly in the public eye. They are our leaders of today. Many look to them as a source of community pride. Many students in our schools look to the athletes as a role model they would like to emulate. This is why a continued effort in setting high standards is essential.

By Bill Clark

CIF SS Commissioner

Over the past few years we have seen an increase in potential abuses of football players by allowing them to compete in more than one level of competition during week.

CIF Southern Section rules state that a high school player may not compete in more than two contests in an 8-day period and an individual may not participate in more than one level of competition in a day.

These rules were written in such a way that schools could, for example, play a varsity game on Friday night and those athletes that did not play very much in the weekend games could be able to play in a junior varsity contest the next day. We are finding out that many schools are scheduling their IV games on Thursdays prior to the varsity contest. It seems that where schools are experimenting with the junior varsity contest coming out for football, they are finding themselves using some players in both IV and varsity contests in the same week.

It was not our intent of the rule to allow an athlete to be able to start or play a great deal in both contests. The intent was to give schools some flexibility for athletes that are on special teams or play sparingly to come back and play in another game. If a school does not have enough athletes to field more than one team, they probably should consider dropping one of those teams.

Additionally, it would be the hope of the Southern Section to see the schools look into rules relating to athletes moving from one team to the other. Many leagues have rules that are sports specific that once a player plays on a team, the player probably would not be able to move down for the rest of the year or vice versa.

There is some real potential for conflict if more than one team in a league is allowed to compete in more than one contest in a week, particularly if they are playing against each other contest.

Hopefully, principals will review this material more closely and also discuss it at their league level.
MARGE GODFREY APPOINTED TO CIF-SS EXECUTIVE COMMITTEE

We would like to welcome Marge Godfrey to the CIF Southern Section Executive Committee. Marge was appointed effective the resignation of Maureen Sanders. Maureen accepted a position with the Los Angeles Department of Education. Godfrey has been involved in education since the early 70’s. She began teaching physical education and coaching at LaGrande High School. She then served at the district office and later was named principal of the Long Beach School District. She is spending one semester at Poly High School of Long Beach.

Today she is the principal of Millikan High School. She brings with her the Committee a wealth of experience in the administration of athletics and involvement with the CIF-SS. From 1976 to 1986 she served as the coordinator of girls’ sports for the Moore League. She has been the Moore League representative since 1986 and has served on a variety of committees for the Southern Section. Congratulations on this appointment and the best of luck to you!

1993 FOOTBALL PRESS CONFERENCE

It was both an honor and a pleasure to have Brett Lewis from KNBC and Tony Hernandez from KCOO on hand to emcee the 19th annual CIF Southern Section Football Championship Press Conference Luncheon held at the Sequoia Athletic Club on December 6, 1993. It was a great success for all in attendance.

The conference is intended to bring together the coaches and players who will be participating in the championship finals later in the week, with local media representatives. This gives the media an excellent opportunity for advance interviews and quotes. It is also a great way to promote sportsmanship between the competing teams.

"The values learned here will be carried with you throughout your lives," said Tony Hernandez. "Congratulations to you all!"
