One of the biggest issues and concerns that our member schools have involves Releaguing. Every four years, the task of configuring our leagues takes place. It is a subject that our member schools are extremely passionate about and take very seriously. The process involves having each of the nine designated areas of our section formulate a plan that places every school in that area into a league within that area for the next four years. However, before the formal Releaguing effort can begin, another important task must be accomplished that has a major effect on the ability of our areas to form viable leagues. That situation is called Area Placement.

Area Placement often gets ignored because of the much larger focus our schools put on Releaguing, but the decisions made regarding Area Placement can have a tremendous impact on how an area can arrive at a league configuration that works best for that area. We are currently involved in the Area Placement process for the 2014-2018 Releaguing Cycle. What that means is we are following the current CIF Southern Section Blue Book rules toward establishing the areas for our member schools so they may begin to develop their area’s Releaguing Plan. To gain a better understanding of these Blue Book Rules, I suggest you visit our website, www.cifss.org, where the entire Blue Book is available for you to download.

This year, some new Blue Book Rules will be applied to Area Placement for the first time. Specifically, the CIF Southern Section Office now has the responsibility of developing the Area Placement plan for our section. Here is the process we are following...

1) We surveyed the principals of our member schools to ask if they wished to remain in their current area or wished to be placed into a different area. The surveys were mailed out on September 14, 2012 and were due back in our office by October 12, 2012. A key component of this survey is a requirement that schools are only allowed to address their own placement into an area, they cannot address issues involving other schools in their area.

2) The results of our survey indicated that approximately 95% of our schools requested to remain in the area they are currently in.

CIF-SS COUNCIL MEETING MINUTES
October 6, 2015
1. OPENING BUSINESS
A. Call to order at 9:05 a.m. by Reggie Thompkins, President of the Council - Commissioner Wigod introduced the Council to a new electronic voting system to be utilized at Southern Section Council Meetings. Each voting member was issued a small device that allowed them to cast their vote in a timely manner (less than one minute). The results were displayed on a large screen so that each member could see the results. This method satisfies all legal requirements in that voting is now officially recorded. The results of today’s voting items are attached at the back of these minutes.

2. PUBLIC HEARING SESSION
A. No speakers from the public were present.
3. ACTION ITEMS
A. STATE FEDERATED COUNCIL ACTION ITEMS
1. Proposal Recommendation Change by Bylaws 1606, 2401, 2902, 2903 - There was a motion and a second to approve STATE520. This proposal allows for a two-year pilot for the 4 sections in the southern part of the state: Central, Los Angeles, San Diego and Southern to forward entries into State Championships by utilizing competitive equity (as opposed to enrollment-based State Championships). There was no discussion. The motion carried 76-4-4.
B. SOUTHERN SECTION ACTION ITEMS
1. Proposal Recommendation Change to Bylaw 1607 - There was a motion and second to approve SS519. This proposal will allow basketball coaches, by mutual agreement, to select a running clock in games if a team is ahead by 40 points, or more, at any time in the contest. This does not have to be determined prior to the game’s start and will be for both boys’ and girls’ basketball. Administration would not be involved in the mutual decision making process by the coaches. This motion carried 83-1-0.
2. Proposal Recommendation Change to Bylaw 2502 - There was a motion and second to approve SS521. This changes “required” to “recommended” in the requirement for base coaches to wear a helmet in the sport of softball only. The mandate began in the 2015 season for baseball and softball. If this passes, this will move on to the state level as the requirement is currently a CIF State bylaw. The motion failed 38-44-2. Softball coaches will continue to be required to wear helmets during base coaching.
4. NON-ACTION ITEMS
A. STATE FEDERATED COUNCIL NON-ACTION ITEMS
(See COUNCIL MINUTES on next page)
COUNCIL MINUTES
(Continued from previous page)

1. Process and development of Bylaws for AB949 - This Bylaw deals with the addition of cheerleading as a CIF sport. No questions and no discussion on this item.

2. Proposed Recommendations for Change to Bylaws 204, 207, 213 - No questions and no discussion on this item.

B. SOUTHERN SECTION NON-ACTION ITEMS

1. Proposal Recommendation Change to Bylaw 3219 - This proposal will change the way Playoff Groupings are done in most team sports. Currently, schools are placed in divisions based on the competitive equity of their league. This model would take each individual school’s ability into account allowing schools within a league to move into different divisions for playoffs. Schools will still qualify for playoffs out of league play, however, in this model; they are not bound to the same division thereafter. This will require every game score be entered into CIFSS Home Hub as the success of this power rankings model depends on complete and accurate information (all game scores shared in the system). In the past, the playoff grouping system used playoff success by a league to determine placement. This system will use a school’s entire schedule to determine placement. The San Diego and Central Sections have something comparable to this system currently. Schools will receive information in December for the current Playoff Groupings process as we must continue that process in the event this proposal is not supported.

2. Proposal Recommendation Change to Sports Calendar - This proposal would change the fall and spring sports calendar as schools are starting and ending earlier. This would move the sports of girls volleyball, cross country, girls tennis and boys water polo one week earlier in the fall. In the spring, the baseball/softball seasons would begin two weeks earlier and boys tennis and boys volleyball would be one week earlier. Currently many schools are out of school in the spring when the playoffs conclude. There was no discussion at this time.

5. REPORT SESSION

A. President’s Report - Reggie Thompkins - The CIF State office hosted the 2015 NFHS Section 7/8 Meeting in September. This is an opportunity for the State Associations to come together and discuss/share the issues in their state. Discussions centered around the evaluation processes, the setting of salaries, and safety issues. The CIF-SS is also proud of the refund given to our member schools for 2014-2015 school year dues.

B. Treasurer’s Report - Jeff Jordan - The 2014-2015 audit was healthy and clean with approval from the Audit Committee and Executive Committee. Even after refunding the schools’ dues, there was a $42,000 profit from the 2014-2015 school year. Revenue currently is less than expenses because section playoffs have not started. We are also waiting for dues payments from member schools. Please encourage schools within leagues to take care of sports fees. Approximately 47 schools have dues outstanding.

C. Commissioner’s Report - Rob Wigod - Jim Perry (reporting on behalf of the Public Private Committee): This group is working to improve the perception of public vs. private schools. The group attempts to dispel the myths of inequities between schools. They are in support of the competitive equity model for playoff groupings. The next step in this is looking at CIF Bylaw 510 and how social media/advertising has changed the face of how schools are marketing themselves. There are many ways schools are marketing themselves (Open Houses, Back to School Nights, 8th Grade Info Fairs, Student Shadowing, etc.). It is up to schools to do things correctly. As competitive equity moves forward, there needs to be some patience in allowing these systems to work. 90% of students in the CIF-SS attend Public Schools with 10% attending Private Schools; competitive equity is the issue.

Rob Wigod: The Commissioner is proud of the $1.9 million dollars that was returned to schools this past year. The Athletic Administrators Summit (October 19th, 8:00am) is coming up. Friday, October 10th is the deadline to sign up for this event. Currently we have over 350 individuals signed up. We are always trying to improve and the AthleticAdministrator Summit event is one of those ways.

4. NON-ACTION ITEMS
   a. STATE FEDERATED COUNCIL NON-ACTION ITEMS
      1. Process and development of Bylaws for A849 - Carter Paysinger reviewed the proposal which is laying out the timeline for instituting cheerleading as an approved CIF sport. Loren Kleinrock asked if the proposal requires the sport of cheerleading to be on all campuses as the other approved sports are not required. Mike West asked for clarification, is this just a typo to Bylaw 2902. Mike West asked more for cheerleading but the question remains, what is competitive cheerleading? Rob Wigod stated that this new Bylaw is coming from States that do not have competitive cheerleading, and once instituted, cannot be argued. Dick Billingsley stated that the institution of cheerleading would help in equalizing the playing field.
      2. Proposal Recommendation Change to Sports Calendar - Reggie Thompkins recommended the proposal. There was a motion and a second to approve this proposal. Rob Wigod reviewed the proposals to replace the sport calendar from the packet. This proposal is targeting sports that do not have State Championships to get in line with our school calendars.

There are still ongoing projects: the storage units behind the building and the use of some of that space as possible office space. There is a need to have a filing system. Getting ready for the data scanning and how that process will generate space as we dispose of paper in addition to making the office more efficient. The catering was not as good as the previous year. We have renewed all of our ball agreement sponsors in the last year.
   c. Marketing Report - John Costello - John Costello reported a 20% increase in licensing fees. In spite of dropping attendance, we are 9% up in sponsorship revenue and over $900,000 in total sponsorship revenue for the first time in our history. Jack in the Box is coming back and we have added a new sponsor with Golds Gym. This is a renewal year with Ford and they seem happy. Working on promotions to make Ford more visible with various the local media and in-office promotions. Working on licensing as CIF Southern Section is a trademarked registration with the State of California and it needs to be protected. This means items need to be licensed. The Northridge Knitting and the South Hills Knitting are two examples. We are now licensing with a variety of companies throughout the State to allow some flexibility for consumers to purchase desirable items and thanks to the school contracts.
   d. Podium Report - John Costello - We have renewed all of our ball agreement sponsors in the last three weeks and have signed for $505,000, a 31% increase from last year.
