FROM: ROB WIGOD, COMMISSIONER OF ATHLETICS
RE: 2012-2013 31st Annual Kenny Fagins CIF - Southern Section
Shake For Sportsmanship Awards

Once again this spring, the CIF Southern Section will join forces with the Los Angeles Dodgers in a salute to the best that high school athletics has to offer: GOOD SPORTSMANSHIP.

Please be advised that each of the 86 CIF Southern Section member leagues will have the opportunity to participate in this program, by selecting one of its member schools to be honored for outstanding sportsmanship displayed (in relation to its athletic program) throughout the 2012-13 school year.

The CIF-SS Office is asking all League Council Reps/Coords to coordinate selection efforts with administrations of their league's member schools. A final selection for the league's 2012-1013 Kenny Fagins CIF-Southern Section Shake for Sportsmanship Awards winner should be forwarded to the CIF-SS Office on or before FRIDAY, March 8, 2013. *This year's ceremony is tentatively scheduled to be conducted prior to a LA Dodgers game. Details of this event will be forthcoming to the winning school.*

Each league may develop its own criteria for selecting its winning school. However, the CIF-SS Office offers the following guidelines for your selection process:

1. PARTICIPATION (The school following and spectators as well as numbers of students involved in athletic/activity programs.)
2. ENTHUSIASM (Consider pep clubs, band, cheerleading and drill squads, etc.)
3. BEHAVIOR AT HOME AND ON THE ROAD (Consider student-athletes, teams, spectators and other school groups.)
4. TREATMENT OF OPPONENTS (Consider the coaches and student-athletes and their reactions in contest situations, as well as the spectators.)
5. TREATMENT OF OFFICIALS (Same points as above.)

Please complete the form at the bottom of this page and return to the CIF-SS Office by FRIDAY, March 8, 2013. Thank you for your attention to this most worthy program.

   Cmte. Supports
   - There was a motion and a second to support SS446. The vote was tied, therefore the motion failed.

4. NON-ACTION SESSION

A. STATE FEDERATED COUNCIL NON-ACTION ITEMS

1. Proposal for Statewide Football Tie-Breaker Discuss STATE451
   - State championships will continue to follow NFHS rule which is 10 yards. Many sections would like to have the option of a “section” specific guideline. The Southern Section football advisory committee would like to keep the 25 yard rule. There are only two sections that have a tie breaker system in place currently. Many games (in other sections) will end in ties.

2. Proposal for Addition of Bylaw 300.D Gender Identity Participation Discuss STATE452
   - There was no discussion on this topic.

3. State Commissioners’ Proposal to Define Bylaw 510, Athletic Motivation Discuss STATE453
   - This added language would provide more examples of “athletic motivation” (camps and clinics are added to the pre-enrollment contact component with other evidentiary pieces as well).

B. SOUTHERN SECTION NON-ACTION ITEMS

1. Proposal from Pacific Coast League for Addition of Bylaw 1903.1 to the Physical Conditioning Practice to be presented by Mark Cunningham Discuss SS450
   - With the change of the football start date, it was challenging for schools to get their required practices in before their first game. Some schools start in August, some after Labor Day. Many
schools lost their scrimmaging opportunity. This adjustment would take care of early starts, number of practices, etc. It doesn’t matter if the calendar ends up going back. This proposal will work regardless.

5. NEW BUSINESS

A. Marketing Report

- Big emphasis on the 2013, CIF-SS 100 year anniversary. FOX has been creating vignettes and informational pieces to help promote this milestone. Our supporting partners have been integral in promoting and funding the event. We will be presenting “100 Athletes for 100 Years”; a fantastic representation of the rich athletic history in our community. Your continued support in hanging banners to showcase our supporters is greatly appreciated.

B. Public/Private Report

- Members from both public and private schools represent this committee exploring issues and misconceptions of one another. Most recently they talked about area placement, but also got some historical facts as the separation of public and private has been discussed in past. Public schools are frustrated with limitations on fund raising. Private schools are facing decreasing enrollment because of the economy. Public schools are eliminating transportation and starting games later, forcing students to find their own transportation to games. There is a feeling that the sport of basketball is driving many of the issues at hand.

- Rob has formed a “Private School Leadership Committee” to expose the private school leadership to “the know” of high school sports. Private schools have a different administrative hierarchy; involving some of these leaders will help further bridge the understanding of challenges both groups face.

6. REPORT SESSION

A. President’s Report

- The “Champions for Character” dinner took place honoring fantastic students, administrators, schools and leagues in our section. Thanks to the individuals putting that event together and FOX for their support and coverage. Staff was commended on their work as was the communication in the office. Twitter, Facebook, CIF-SS Home and the CIF-SS website has been an integral part.

B. Commissioner’s Report

- We are excited about the centennial and looking forward to the celebration of that event and the history of what this organization does. CIF-SS Home has been a great addition to the efficiency and ease of information exchange. San Diego has picked this up and it is anticipated that other sections within the state will too. The section is successfully implementing the new transfer rules.

- This is the first year we were able to award scholarships at the “Champions for Character” dinner. We can do that with the support of our golf tournament. Please continue to nominate deserving individuals for those awards.

- Be aware of the upcoming “area placement” and “re-leaguing” timeline. Pay special attention to the “area placement” timeline as the “re-leaguing” portion dates may be pushed back.

- Please support the cause by “liking” the CIF-SS on Facebook. We are here to serve and we encourage open lines of communication to our office.
C. Treasurer’s Report

- The annual audit was completed and accepted by the Executive Committee. The Southern Section had a profit over $111k with our net assets at $3.2 million (cash, investments, inventory, property and equipment). $188K in total liabilities. We are continuing the commitment to technological advancements to improve the efficiency of information exchange at no cost to the member schools. We will continue this practice evolving CIF-SS Home software and committing to ongoing refinements. The office is in the midst of network transition. The CIF building was recently painted and sport graphics added. 33% of budget has been spent YTD on the 100th year anniversary celebration. 554 schools have paid sports fees, $452k in revenue (fees only account for 12% of total revenue), 25 schools outstanding as of 10-25-12.

Type: Statewide Football Tie-Breaker Proposal

Next: Discussion at Feb. 1, 2013 Federated Council – Vote In May 2013

Proposal Summary: It is anticipated that there may be a new or a revised proposal presented in February. The CIF State Football Advisory Committee forwarded a proposal for a statewide football tie-breaker for all varsity contests (non-league, league, playoffs, CIF State Football Championship Bowl Games) using the 10-yard line overtime procedure example in the National Federation Rules Book (p.89-91) as allowed by Rule 3-1-1, Note.

Fiscal Impact: None

Background: At the request of the Section Commissioners in October 2011, the Football Advisory Committee comprised of football coaches and administrators representing all ten sections formulated a proposal for a statewide tie-breaker. The initial proposal included two options for overtime procedures (10-yard and 25-yard formats). After a review by the commissioners in March 2012, the proposal was forwarded to the Executive Committee. The Executive Committee sent the proposal back to the Football Advisory Committee with the request that the proposal be amended to include only one option for the overtime procedure. In May 2012, the Football Advisory Committee met and supported a revised proposal to include only the 10-yard procedure which was forwarded to the Section Commissioners to review at their June 2012 meeting. The Section Commissioners reviewed
the proposal and recommended that it be moved forward to the Executive Committee for review at their September 2012 meeting.

**Analysis:** The Sections are split 6-4 re: the use of the 10-yard tie-break procedure and the 25-yard procedure in their contests (see below for details). The 10-yard procedure is currently used in the CIF State Football Championship Bowl Games. The proposal attempts to bring consistency to a sport that culminates in a state championship which is similar to other championship sports exercising the NFHS option for state association adoption when allowed by rule.

**Section Policies re: Use of 10-yard or 25-yard Procedure:**

- Central: 25-yard for all varsity contests
- Central Coast: 10-yard for all varsity contests
- Los Angeles City: 25-yard for all varsity contests
- North Coast: 10-yard for playoffs – League decision otherwise
- Northern: 10-yard for all varsity contests
- Oakland: 10-yard for all varsity contests
- Sac-Joaquin: 10-yard for all varsity contests
- San Diego: 25-yard for all varsity contests
- San Francisco: 10-yard for all varsity contests
- Southern: 25-yard for playoffs – League decision otherwise

Type: New Bylaw

Next: Feb. 1, 2013 – Action Item before Federated Council

Proposal Summary: The purpose of this addition is to create specific wording and administrative regulations to assist schools and school districts to ensure that transgender student-athletes have a fair, respectful and legal process and access to education based sports. Should any questions arise whether a student’s request to participate in a sex-segregated activity consistent with his or her gender identity is bona fide, a student may seek review of his or her eligibility for participation.

Fiscal Impact: None for schools or sections. Minimal for CIF, cost of travel and hearing expenses for review panel.

Background: Transgender students and students in transition often do not participate in sports. However, when a transgender student does desire to participate, school districts often do not have a process in place to ensure a fair and respectful procedure for determining gender identification of the student and they ask CIF for direction and assistance.

Analysis: In 2011, State Assemblyman Tom Ammiano introduced A.B. 266, a bill that would allow students to participate in the gender in which they identify. The bill would have had far reaching unintended consequences.
In 2009, the Washington Interscholastic Activities Association (WIAA) working with school and medical professionals developed an individualized review process that is now considered a national model for interscholastic sports. This proposal mirrors the WIAA process. The process allows individual schools/school districts to access a state-wide review panel that consists of: (A) physician with experience in gender identity health care and the World Professional Association for Transgender Health (WPATH), (B) a psychiatrist or licensed mental health care professional familiar WPATH Standards of Care, (C) a school administrator, (D) CIF staff member, (E) advocate familiar with gender identity and expression issues. This panel would ensure that students *not* in transition could not attempt to use this issue as an avenue to participate in sports.

The proposed bylaw reaffirms that transgender students have equal access to participate in sports and provides a process for their participation. The “Guidelines” will be published and available on the CIF web site.
300 D. Gender Identity Participation
Participation in interscholastic athletics is a valuable part of the educational experience for all students. All students should have the opportunity to participate in CIF activities in a manner that is consistent with their gender identity, irrespective of the gender listed on a student’s records. Should any questions arise whether a student’s request to participate in a sex-segregated activity consistent with his or her gender identity is bona fide, a student may seek review of his or her eligibility for participation by working through the procedure set forth in the “Guidelines for Gender Identity Participation.”
Guidelines for Gender Identity Participation

GENDER IDENTITY PARTICIPATION - All students should have the opportunity to participate in CIF activities in a manner that is consistent with their gender identity, irrespective of the gender listed on a student’s records. Should any questions arise whether a student’s request to participate in a sex-segregated activity consistent with his or her gender identity is bona fide, a student may seek review of his or her eligibility for participation by working through the procedure set forth below. Once the student has been granted eligibility to participate in the sport consistent with his/her gender identity, the eligibility is granted for the duration of the student’s participation and does not need to be renewed every sports season or school year. All discussion and documentation will be kept confidential, and the proceedings will be sealed unless the student and family make a specific request.

A. NOTICE TO THE SCHOOL: The student and/or parents shall contact the school administrator or athletic director indicating that the student has a consistent gender identity different than the gender listed on the student’s school registration records, and that the student desires to participate in activities in a manner consistent with his/her gender identity.

B. NOTICE TO THE CIF: The school administrator shall contact the CIF office, which will assign a facilitator who will assist the school and student in preparation and completion of the CIF Gender Identity eligibility appeal process.

C. FIRST LEVEL OF APPEAL: The student will be scheduled for an appeal hearing before an eligibility committee specifically established to hear gender identity appeals. The CIF shall schedule a hearing as expeditiously as possible, but in no case later than five (5) school business days of that member school prior to the first full interscholastic contest that is the subject of the petition, or within a reasonable time thereafter in cases of emergency, including, but not limited to, any unforeseeable late student enrollment. The Gender Identity Eligibility Committee will be comprised of a minimum of three of the following persons one of whom must be from the physician or mental health profession category:

For Additional information on Gender Identity, refer to APPENDIX

APPENDIX – GENDER IDENTITY

DEFINITIONS:
For the purposes of this policy, the following definitions apply:

1. Transgender Person: A person whose gender identity does not match the sex assigned to him or her at birth. This cross gender identification is often referred to as gender dysphoria. When the gender dysphoria causes clinically significant distress or impairment, it is sometimes classified as Gender Identity Disorder. A transgender person who is born female-bodied but identifies as male is referred to as a transgender man or a female-to-male transsexual. A
transgender person who is born male-bodied but identifies as female is referred to as a transgender woman or a male-to-female transsexual.

2. Intersex Person: "Intersex" is a general term used to indicate a person born with a reproductive or sexual anatomy and/or chromosome pattern that doesn't seem to fit the typical definitions of female or male. This may be the result of several different medical conditions involving chromosomal variations, hormonal variations, ambiguous genitalia, and/or an anatomy that includes both male and female characteristics. The medical term for this condition is a Disorder of Sexual Development of "DSD." "Intersex" is not the same as "transgender," although some people identify as both intersex and transgender. However, the two groups may face similar situations in needing to change gender designations for the purposes of participation in school activities.

3. Gender Identity: A person's deeply-felt internal sense of being male or female.

4. Gender Expression: A person's external characteristics and behaviors that are socially defined as either masculine or feminine, such as dress, mannerisms, speech patterns and social interactions.

CORE VALUES:
The CIF Gender Identity policy has been developed based on the following core values:
- Acknowledging that the CIF policy will likely need to be reviewed and revised to reflect increased medical understanding and evolving societal norms
- Grounding a policy in sound medical practice
- Enacting a policy that will maximize flexibility and privacy with minimal restrictions
- Providing a space for intersex and transgender students to exist and thrive
- Reducing bullying and harassment of students
- Preserving existing practices regarding girls' participation on boys' teams as per current CIF policy.
- Recognizing the value of education based athletics for all students
- Emphasizing that participation in education based athletics is not just allowed, but encouraged for all students
- Adhering to California state and federal law regarding gender equity and educational opportunity
- Operating from the presumption that all students will have access to programs and eligibility policies
- Creating a level playing field for all students
- Reducing economic barriers, especially for minority populations
- Addressing the concerns of parents, teachers and coaches through an educational component

Type: Bylaw Revision

Proposal Summary: Bylaw 510 has been reorganized and additional language has been developed to more clearly define the term “Athletically Motivated Transfer.” Some language has been deleted.

Fiscal Impact: None

Background: In May 2009, the Federated Council voted unanimously to revise Bylaw 510 regarding transfer eligibility. The revisions included the addition of the wording “athletic motivation” and “transferring for athletic reasons.” The proposal originated with the Commissioner Committee.

ANALYSIS:
In Bylaw 510, Undue Influence, the term transferring for athletic reasons and/or athletically motivated transfer appears. The commissioners began work in June 2012 to revise the bylaw to include more specific wording to clarify and define the term “athletic motivation.” Critics of the present bylaw state that “the transfer eligibility rules cannot be enforced in a fair, objective and consistent manner” as the wording is “vague, indefinable and malleable.”
This proposed bylaw revision attempts to keep in force the guiding principles established in Bylaw 200, that students' should attend school to receive an education first and that athletic participation is secondary. The revisions include specific circumstances and evidence that a section may consider as signs of "athletic motivation" and additional factors that that may be considered in support of evidence of athletic motivation.

These proposed revisions do NOT prohibit the school and or student from presenting evidence that rebuts or disproves the allegation.

510 UNDUE INFLUENCE, PRE-ENROLLMENT CONTACT, DISCLOSING PRE-ENROLLMENT CONTACT, ATHLETICALLY MOTIVATED TRANSFERS

A. The use of undue influence by any person or persons to secure or retain a student or to secure or retain one or both parent(s)/guardian(s)/caregiver of a student as residents may cause the student to be ineligible for high school athletics for a period of one year and shall jeopardize the standing of the high school in the CIF.

Undue influence is any act, gesture or communication (including accepting material or financial inducement to attend a CIF-member school for the purpose of engaging in CIF competition regardless of the source) which is performed personally, or through another, which may be objectively seen as an inducement, or part of a process of inducing a student, or his or her parent(s)/guardian(s)/caregiver, by or on behalf of, a member school, to enroll in, transfer to, or remain in, a particular school for athletic purposes.

B. A student shall become ineligible for CIF competition and shall be penalized according to Bylaw 212 for accepting material or financial inducement to attend a CIF-member school for the purpose of engaging in CIF competition, regardless of the source.

C. Pre-enrollment contact or an athletically motivated transfer may be considered prima facie evidence ("sufficient evidence") that the student enrolled in that school in whole or in part for athletic reasons (See Bylaw 200 and 206.C.) and cause the student to be ineligible for participation those sports in which the student participated at the former school.

Athletically motivated pre-enrollment contact of any kind by anyone from, or associated* with, a school or its athletic programs to which a student may transfer or move into the attendance area is not permitted. When a prima facie case (sufficient evidence) of undue influencing/recruiting exists, the student shall be ineligible to represent the new school in interscholastic athletic competition for a period of one calendar year from the date of the student's enrollment in the new school in all sports in which the student participated at any school in the last twelve months and/or the sport with which the coaches referenced herein is associated, unless sufficient proof is presented to the satisfaction of the Section Commissioner that rebuts or disproves the evidence of undue influence/recruiting for athletic reasons.

NOTE: CIF Form 510 is available through the local Section Office.
(2) **Definition of being “Associated” with a school:**

*Persons “associated” with a school include, but are not limited to: current or former coaches, current or former athletes, parent(s)/guardian(s)/caregiver of current or former student/athletes, booster club members, alumni, spouses or relatives of coaches, teachers and other employees, coaches who become employed, active applicants for coaching positions, and persons who are employed by companies or organizations that have donated athletic supplies, equipment or apparel to that school.*

**As stated in CIF Bylaw 200.A.2** the CIF Bylaws reinforce the principle that students attend school to receive an education first; athletic participation is secondary. CIF Bylaws provide for Individual Section Offices to limit eligibility for a student when there is evidence the transfer, or move is made to acquire athletic participation at their new school (School B).

Students may be determined by their respective CIF/Section Office or the CIF to have made an athletically motivated transfer or change in schools if one or more of the following circumstances are determined to have contributed in any way to the transfer or change in schools:

(1) **Evidence of parental or student dissatisfaction with a coach or a coaching decision at the former school. Evidence of this may include, but is not limited to:**

a. The student or the parents/guardians/caregivers have had a verbal disagreement that is documented, with any member of the former school's coaching staff, anyone associated with the athletic department or any School Administrator in the twelve months prior to the student's change in schools regarding the team or any aspect of the team, including but not limited to any aspect of practice, schedules, off season conditioning, club participation, playing time, family conflicts with team activity schedules, coaching decisions about any aspect of the team strategies, player selection, playing time, organizational issues, communication issues; AND/OR

Bylaw 1623 Color of Jerseys

Proposed language:

“In all basketball games played between member schools of the CIF Southern Section, The host team shall wear white dark colored jerseys.”
Proposal from the Pacific Coast League

The Pacific Coast League would like to make an addition to rule Rule 1903.1, as it relates to the counting system for number of days of practice prior to the first game (add section d to the counting system). The change in the starting date for football, implemented by the state, has caused many problems for schools that are not in session prior to their first game. With our current system, many schools have to count two practices per day during the week of their first game. This change will also allow for schools, not in session, to have a scrimmage and to have 14 days of practice prior to the first game. (CIF gave permission to schools that allowed them 26 practices to help meet the 14 day rule). Adding part d to rule 1903.1 will allow scrimmages and will meet the CIF criteria of 14 days of practice prior to the first game. It will also allow teams not in session prior to the first game, to get 25 actual practices.

1903.1 The start date for fall football practice, for each individual school, will be determined according to the following formula:
   1. Identify the date of their first contest.
   2. Count backward from that date, counting each day in the following way:
      a. Non-School Weekdays - Two (2) practice opportunities
      b. School Days - One (1) practice opportunity
      c. Teacher/Staff Work Days, Saturdays and Labor Day - One (1) practice opportunity
      
      d. The week of the first game – One (1) practice opportunity. (addition)

NOTE: If a school wishes to practice twice on Teacher/Staff Work Days, Saturdays and/or Labor Day, they may do so, but each practice will count toward their maximum of 25 practice opportunities

Educational Philosophy and Basic Beliefs

1. Students should be the center of everything we do.

2. Schools should provide all students with a rigorous and relevant education
designed to give them the opportunity to acquire, apply, and practice the
knowledge, skills needed to fulfill their adult roles in the 21st Century.

3. Students and staff should regularly have both formal and informal
opportunities to communicate with the leadership of the school. The
superintendent should regularly visit the sites and spend enough time in
classrooms to understand the day-to-day realities of students and staff.
4. Students should experience in school what they are likely to experience after graduation through work that requires them to solve problems and to apply learned skills and behaviors in real-life situations.

5. Students should be served through a process of continuous assessment and improvement that values the active participation and contribution of students, parents, staff and other stakeholders.

6. Students and staff must be provided with a safe supportive learning environment.

Re: Bylaw 500.D - Exhibition Competition

Proposal Originated: Section Commissioners Committee

Proposal Reviewed
June 13, 2012 – Section Commissioners Committee
Sept. 24, 2012 – Wrestling Advisory Committee
Oct. 3, 2012 – Commissioner Committee
Nov. 28, 2012 – Executive Committee

Proposal Recommendation
Forward to wrestling advisory committee
Recommend more specific language
Approved with revised wording
Approved – Forward to Executive Committee
Approved 8-0

Type of Bill: Bylaw Revision

Next Steps: February 1, 2013 – First Reading Federated Council

Proposal Summary: Add language to Bylaw 500.D that defines “Exhibition Competition” for both team and adds “individual sports” to the Bylaw. Previously, only “team” sports were permitted to participate in exhibition competition. “Individual” sports were not included in the Bylaw.

Fiscal Impact: None to CIF. Could have minimal impact to school regarding officials’ fees.

Background: In June 2012, the Commissioners committee began to revise Bylaw 500.D “Exhibition Competition” to include the sport of wrestling and add individual sports to the bylaw as it had been omitted in the past.

Analysis: Individual sports have had athletes competing in “exhibition competitions for years, even though it was not specifically authorized under bylaw 500.D. This additional language will better define and allow individual sports to compete at the “Exhibition” level and eliminate confusion.
ARTICLE 50- GENERAL RULES

500. AUTHORIZED PARTICIPATION

D. "Exhibition" competition (such as, but not limited to, fifth quarter, open lane open mat, and open court competition) involving CIF-member schools may be allowed as an adjunct to regular CIF competition under the following provisions. Team sports for the purposes of this bylaw include baseball, basketball, field hockey, football, lacrosse, soccer, volleyball, water polo and wrestling. Individual sports for the purposes of this bylaw include: Badminton, Cross Country, Golf, Gymnastics, Swimming & Diving, Tennis, Track & Field, Skiing.

(1) TEAM SPORTS:

   a. Duly-appointed coaches (as specified in Bylaw 506) and contest officials are present and supervising the activity. If officials require any additional fees for officiating exhibition competition, it shall be negotiated with the host school and their officials association in compliance with any Section rules and regulations; AND
   b. Such contests count toward the competing individual’s allowable maximum number of contests; AND
   c. A team score is not kept or recorded; AND
   d. Such team competition is not conducted concurrently with the regulation CIF competition; AND
   e. Such team competition is held at the same site, immediately preceding or following the regulation competition; AND
   f. Such team competition is shorter in duration than the regulation competition in that sport; AND
   g. Participants in such competition shall not compete in any regulation CIF competition in the same sport during the same day or event; AND
   h. Participants in such competition represent their own school enrollment (i.e., competition on a "rainbow" team and/or a team made up of students representing two or more school is prohibited); AND
   i. Written permission is granted for such competition by the principals of all schools involved; AND
   j. Participants in such competition meet all eligibility requirements of the State CIF, Section and league.

(2) INDIVIDUAL SPORTS.

Re: Bylaw 3103 Wrestling Weight Management Penalty

Nov. 28, 2012 – Executive Committee

Proposal Recommendation

Approved 8-0

Type of Bill: Bylaw Revision

Next Steps: February 1, 2013 – First Reading Federated Council

Proposal Summary: Adds language to Bylaw 3103 that institutes penalties for wrestlers competing at weight classes they are not eligible. Presently there is no penalty.

Fiscal Impact: None

Background: In June 2012, the Section Commissioners committee began to revise Bylaw 3103 to include a written penalty in the event a wrestler violates the Wrestling Weight Management program.

Analysis: Wrestlers have been competing out of their eligible weight class according to the CIF Weight Management Bylaws and the NFHS rules. The added language to this bylaw will institute a penalty for wrestlers competing who compete in a weight class in which they are not eligible.
3103. WRESTLING WEIGHT MANAGEMENT PROGRAM

3103. CIF WRESTLING WEIGHT MANAGEMENT PROGRAM
The establishment of a certified minimum wrestling weight based on 7% body fat for males and 12% for females is required for all high schools. Participation in the CIF Wrestling Weight Management Program will be mandatory and binding for all CIF interscholastic wrestlers. No wrestler may compete until he/she has completed the required body composition assessment. The CIF will utilize the NWCA Optimal Performance Calculator as the mechanism to calculate the certified minimum weight for each wrestler and as the data reporting and retrieval tool for all member schools sponsoring wrestling.

A. Establishing Certified Minimum Weights

(1) For all initial assessments, Bioelectrical Impedance will be the only method utilized to determine each wrestler’s body fat percentage. Refractometers will be utilized to determine hydration levels through analysis of urine. Only measurements taken by persons who have successfully completed the CIF Assessor Certification Workshop will be valid. Schools will receive a list of CIF Certified Assessors. It is the responsibility of the school to contact an assessor from this list and arrange a time to have its wrestling squad assessed or attend a Section sponsored regional testing clinic. No wrestler may compete until the athlete has had a certified minimum wrestling weight determined by the NWCA Optimal Performance Calculator and it appears on the school’s NWCA Pre-Match Weigh-In Form. Once a wrestler competes at a weight class allowed by the weight loss plan, the option to appeal is voided.

(2) 1% Variance: The formula incorporated by the NWCA for assessment data for CIF wrestlers will automatically include a 1% variance of the wrestler’s body weight at the certified minimum weight. (Example: If a male wrestler’s minimum body weight at 7% is 150, the program will indicate that 148.5 lbs. is the certified minimum for that wrestler).

(3) The lowest weight class at which a wrestler may compete will be determined as follows:
   a. If the certified minimum weight, at 7% or 12% body fat, is exactly that of one of the adopted weight classes, that weight shall be the wrestler’s minimum weight class;
   b. If the certified minimum weight, at 7% or 12% body fat, is greater than one of the adopted weight classes but lower than the next higher weight class, the next higher weight class shall be the wrestler’s minimum weight class.

PENALTY: Failure to adhere to these bylaws will result in the wrestler being declared ineligible for that competition and for the next regularly scheduled match competition. If this occurred during a tournament then the athlete would be ineligible for the duration of that tournament and for the next regularly scheduled match/competition for that team or individual.

B. Time Period for Assessments

(1) No wrestler may compete until he/she has participated in an initial assessment and his/her name and data are included on the school NWCA Pre-Match Weigh-In Form and Alpha Master Report.

(2) The specific gravity of the urine, as determined by a refractometer analysis, will determine whether a candidate may participate in an assessment on any date. A specific gravity result of less than or equal to 1.025 is required in order to participate in the body assessment. Any wrestler not passing the urine specific gravity test must wait a minimum of 24 hours in order to be retested.

(3) Assessments may begin on October 15 of each school year. Wrestlers may be measured any time on or following this date and no later than January 15 to establish a minimum wrestling weight. All wrestlers, including those coming out late, must have their minimum wrestling weight established prior to competing.

a. Hardship Exceptions
   Appeals may be submitted to the Section office for the following two exceptions only:

   (i) Assessment Exception One: A student under doctor’s care may be assessed after January 15 before the student competes or within seven days, whichever comes first, following the student’s release from the doctor.

   (ii) Assessment Exception Two: A student who becomes eligible after January 15 may be assessed after January 15 before the student competes or within seven days, whichever comes first, following the student becoming scholastically and/or residentially eligible.
A wrestler who competes at a weight class allowed by his/her weight loss plan before or during an appeal has accepted his/her most recent assessment and voids all other appeal options allowed within this policy.

C. School Responsibilities for the Measurement Process

1. It is the school’s responsibility to contact and contract with a CIF Certified Assessor from the list provided by the CIF or attend a Section sponsored regional testing clinic.

2. Schools choosing to contract with a CIF Certified Assessor will be required to have the following forms available at the time of assessment:
   a. Bioelectrical Impedance Assessment Data Forms.
   b. Plastic collection cups to conduct urine specific gravity tests.
   c. Two adults (teacher, AD, parent(s)/guardian(s)/caregiver, etc.) who will:
      i. Assist with measuring height (in feet and inches);
      ii. Assist with the recording of data;
      iii. Assist with urine specific gravity testing.

3. Bioelectrical Impedance assessments shall not be conducted by any active wrestling coach at any level.

D. Wrestlers Below 7% or 12% Body Fat

Prior to competition, any male wrestler whose body fat percentage at the time of his initial assessment is below 7% may request a waiver in order to establish a certifiable wrestling weight class if a physician attests that the athlete is naturally at his sub-7% body fat level. In the case of a female wrestler, a waiver may be requested if the athlete is naturally at her sub-12% body fat. A waiver form must be signed by a physician, a parent(s)/guardian(s)/caregiver, the principal and the head wrestling coach. The completed waiver form must be mailed or faxed to the appropriate Section office. Wrestlers may not compete at their waiver weight class until the completed waiver form, with all four required signatures, has been received by the appropriate Section office. The waiver weight class is valid for one season only and expires March 15 of each year. The sub-7% male or sub-12% female, who receives clearance, may not wrestle below their actual weight class at the time of initial assessment.

**Penalty:** Failure to adhere to these bylaws will result in the wrestler being declared ineligible for that competition and for the next regularly scheduled match/competition. If this occurred during a tournament then the athlete would be ineligible for the duration of that tournament and for the next regularly scheduled match/competition for that team or individual.

E. Growth Allowance

1. The NFHS Wrestling Rules provide a two-pound growth allowance on January 15 of each wrestling season.

F. Weight Loss Per Week

1. An average weight loss limit per week of 1.5% of body weight at the time of initial assessment has been established. A season-long weight loss plan will guide each wrestler’s weight loss during the season.

2. The weight loss plan shall determine in which weight class(es) a wrestler may compete each week.

3. A wrestler is ineligible to compete in a weight class below the lowest eligible weight class defined by the weight loss plan before the proper amount of time has passed to achieve the weight class.

**Note:**

a. A wrestler shall not wrestle more than one weight class above that class for which the actual weight, at the time of weigh in, qualifies the competitor (NFHS Rule 4-4-2).

b. If a wrestler weighs in one weight class below his/her lowest allowable weight class per his/her NWCA Pre-Match Weigh-In Form, he/she is eligible per NFHS Rule 4-4-2 to only wrestle at the lower of the two weight classes listed for that day on his/her NWCA Pre-Match Weigh-In Form.

c. If a wrestler weighs in two or more weight classes below his/her lowest allowable weight class per his/her NWCA Pre-Match Weigh-In Form, he/she is ineligible to wrestle in any weight class at that competition.

d. If a wrestler weighs in at a weight class higher than his/her allowable weight classes per his/her NWCA Pre-Match Weigh-In Form, he/she may wrestle in compliance with NFHS Rule 4-4-2, a wrestler shall not wrestle more than one weight class above that class for which the actual weight, at the time of weigh in, qualifies the competitor.

**Penalty:** Failure to adhere to these bylaws will result in the wrestler being declared ineligible for that competition and for the next regularly scheduled match/competition. If this occurred during a tournament then the athlete would be ineligible for the duration of that tournament and for the next regularly scheduled match/competition for that team or individual.

Type: Girls Wrestling Weight Class Redistribution Proposal

Next: February 1, 2013 First Reading – Voting Item in May

Proposal Summary: The Girls Wrestling Advisory Committee has endorsed a new weight class proposal intended to modify the existing weight classes and establish a more balanced approach for weight certification. The new proposed weight classes are as follows: 101, 106, 111, 116, 121, 126, 131, 137, 143, 150, 160, 170, 189, 235. The approval and implementation of the proposed weight classes, will provide a more accurate representation of where the girls would actually weight certify for competition. The current weight classes are: 98, 103, 108, 114, 118, 122, 126, 132, 138, 146, 154, 165, 189, 235.

Fiscal Impact: None

Background: The proposal is intended to provide a more healthy environment for the girls wrestlers to “make weight” in preparation for competition. Duane Morgan (CCS/CIF Wrestling Rules Interpreter) collected research data from the past 3 years using the NWCA Weight Management Program in which all wrestlers must participate prior to competition. From the data collected, the new proposed weight classes will provide more of a "bell-shaped curve" with a more even distribution between the weight class structure. The 4-pound differential between the 114-118-122-126 weight classes created a practice of girls waiting for the 2
pound growth allowance on the January cut-off date and then dropping to the lower weight class, which is the opposite of the original intent of the 2 pound growth allowance. There was no weight class provided for the girls between 165 and 189 which created a dangerous gap for many girls that fit into a 170 and low 180 pound weight class. This proposal was designed to provide a healthier environment for girls wrestlers and had a unanimous vote to move the proposal forward for further consideration.

Re: Proposal – First Reading Bylaws 100 and 101 Revision

Proposal Originated: Executive Committee

Proposal Reviewed
Nov 29, 2012 – Executive Committee
Jan. 10, 2013 – Commissioners Committee

Proposal Recommendation
Supported 8-0, forward to Fed. Council

Type: Bylaw Revision

Next: Federated Council – Voting Item in May

Proposal Summary: The General Counsel for the C.I.F. was asked to review Bylaws 100 and 101 (Voting and Reconsideration) as it appears that there is conflicting language. General Counsel is making recommendations to eliminate the conflicting wording while still maintaining the original intent of the two bylaws.

Fiscal Impact: None

Background: From 1914 through the 2002-03 school year it had been the policy that it takes a majority vote from the Federated Council to amend/change or add a bylaw (2/3 for constitutional change).

In 2002, the Policy and Procedures committee recommended a process where if a bylaw was passed by a majority vote at the Federated Council, but sixty percent (60%) of the sections were in opposition that there would be a mechanism in place to allow those who voted in opposition to bring back the amendment for additional consideration by the Federated Council. The “Reconsideration” policy was approved by the Federated Council in November 2002 and became Bylaw 101.

At the first reading of proposed Bylaw 101, the amendment was clear and straight forward in the addition of the reconsideration mechanism. However, upon voting there were changes to both Bylaw 100 and 101 and those changes created a conflict that apparently has never been recognized.
Bylaw 100, as written today, would not only require a majority vote, but also the support of at least seven (7) sections.

100. AMENDMENT OF BYLAWS
These bylaws may be amended at any meeting of the Federated Council. An amendment shall be considered approved whenever it receives a majority of the Federated Council votes and is supported by more than 60 percent of the Sections.
(Revised November 2002 Federated Council)

Bylaw 101 states that if action is taken by a majority vote but without the support of 60% of the sections, the action may be reconsidered.

101. RECONSIDERATION OF COUNCIL ACTION
In the event action is taken by a majority vote of the Federated Council, and that action is contrary to the unanimous vote of 60 percent of the Sections, the action may be reconsidered through the following procedures:

"These results appear contrary to the intent of the bylaw" according to the legal analysis supplied by our General Counsel.

101. RECONSIDERATION OF COUNCIL ACTION
(3) The amendment will be returned for a vote at the next Federated Council meeting with a simple majority vote needed for passage.
(4) In the event there is no request for reconsideration within the 10 calendar day timeline or forwarded materials to Sections within the 30 calendar day timeline, the amendment will be considered passed.

Bylaw 101 reaffirms, twice, that it takes a simple majority for passage. 1) If reconsideration is requested, a simple majority vote of the Federated Council is required for passage. 2) If no reconsideration is requested, then the amendment which passed with a majority vote but less than six sections will be considered passed.

On the following page is the recommendation to combine Bylaws 100 and 101 into one Bylaw (100) in order to clarify this issue from the C.I.F. General Counsel and still maintain the original intent of Bylaws 100 and 101.
Bylaw 100 – Recommended Change (Changes in Red Bold)

100. AMENDMENT OF BYLAWS

A. These bylaws may be amended at any meeting of the Federated Council by a majority vote. An amendment shall be considered approved whenever it receives a majority of the Federated Council votes and is supported by more than 60 percent of the Sections.
(Revised November 2002 Federated Council)

B. RECONSIDERATION OF COUNCIL ACTION

In the event action is taken by a majority vote of the Federated Council, and that action is contrary to the unanimous vote of 60 percent of the Sections, the action may be reconsidered through the following procedures:

Timeline for Reconsideration

(1) Reconsider Notification: Within 10 calendar days after the initial vote, the State Office must receive notification of intent to ask for reconsideration.

(2) Written materials to Sections: 30 calendar days after the initial vote, Sections activating the reconsideration process must send out materials to all Sections and the State Office.

(3) The amendment will be returned for a vote at the next Federated Council meeting with a simple majority vote needed for passage.

(4) In the event there is no request for reconsideration within the 10 calendar day timeline or forwarded materials to Sections within the 30 calendar day timeline, the amendment will be considered passed.
(Example of timeline: fall – issues presented for a first reading; winter – discussion, vote and reconsideration if necessary; spring – revote, if necessary. In other words, it could take three Federated Council meetings in order for an item to be passed once this bylaw is put into effect.)

C. Upon majority action of the Executive Committee, this Bylaw 100 and/or 101 shall be set aside in the event of a need for emergency action. In that event, a majority vote shall prevail.

D. Following adoption of the amendment, the effective date shall be July 1, unless the motion carries a specific implementation date.
(Approved November 2002 Federated Council)

AT-LARGE ENTRIES
Sections may enter additional competitors provided they have met or bettered the “At-Large” standard for their event in their Section Meet that qualifies athletes for the CIF State Swim and Dive Championships. In the swimming events, all times must be recorded on “Fully Automatic Timing” systems (FAT). No hand times will be accepted.

Financial Criteria and Feasibility for New Events Sponsored by CIF:
1. What travel, lodging, and meal reimbursement will be provided to participating schools (please use the CIF Adopted Criteria)?
   - None. The proposed championship is similar to the cross country and track and field championships currently in place. At this time, the reimbursement of expenses are not offered to member schools.

2. Will this event place any CIF Section event at risk financially?
   - This event will not place any CIF Section event at risk financially because it takes place after all section championships have been concluded. This event will possibly generate greater excitement in the sport of swimming and diving at the section level and generate additional profit due to bringing a long awaited state championship meet to California.

3. Will this event be a burden on any CIF Section budget or the State CIF budget?
   - This event will not place any burden on any CIF Section budget because it takes place after all section finals have been completed. The State CIF will work with interested host communities to keep championship expenses in line with the projections below and use additional marketing opportunities to supplement the budget.
4. Please provide a detailed, specific, feasible cost estimate for the operation of this event. Below are the budget estimates for this event:

5. Please demonstrate using both costs in #4 above and anticipated event revenue how this event may be sustained economically over many years.

- CIF-SS predicts, using the projections above in #4 and data collected from other Sections, that the event can be sustained economically over many years. Based on the historical returns at the CIF-SS championships, which will closely model in size and scope the proposed State swim championships, the individual section championships are financially sovereign; therefore, the CIF-SS projects revenue totals of the proposed state swim championships to be similar to the section championship.

6. Is the current CIF State Office staff capable of managing this event?

- The current CIF State Office staff is capable of managing this event and the event expenses cover the costs of a State Tournament Director to assist the State office staff.
7. Is there capable staff available to support the CIF State Office in the operation of this event?
   • Yes. The State office staff currently has adequate resources to staff the event.

Philosophical Criteria for New Events:
1. How does this event contribute to the goals of the CIF (i.e. a new event may enhance gender equity, economic stability and enhance the awareness of values taught through sport)?
   • This event would bring the best athletes from each section to compete in an even larger scale event than their own section championships. It's another opportunity for both boys and girls to have "state" level competition as other individual sports currently do (i.e. track & field, wrestling and tennis).

Qualifying Participation Criterion for a Regional Championship:
1. Do 50% of all CIF sections participate in the sport in the same season?
   • Yes, with the exception of the Northern Section, which offers swimming and diving in the fall, all other CIF sections offer the sport in the spring season.

Other Questions:
1. How will this event benefit participating schools and students?
   • This event will give boys and girls the opportunity for post-section championship opportunities not currently available in swimming/diving.

2. Do the proposed dates conflict with state mandated testing?
   • The proposed dates are ones that are currently used for playoff opportunities in other sports. No conflict with state testing is anticipated.

3. Does the event cause additional loss of instructional time? If so, has any thought been given to mitigating this loss (Saturdays, evenings, vacation time)?
   • The two-day event is planned for an evening prelim on a Friday and Saturday day, mitigating the loss of class time. Depending on travel, there may be some loss of instructional time, but minimized with the current time and date schedule.

4. If the proposal is for a sport that is played now in more than one season in the state, what dates are selected and why?
   • With the exception of the Northern Section, the remaining nine sections all compete in the spring season. The proposed dates of the event coincide with the next available weekend after the completion of Section finals.

5. How, specifically, will this event be a demonstration of the values of participation in high school athletics? In choosing teams or individuals for an event, is there any criterion such as demonstration of respect, sportsmanship, citizenship, achievement through effort and cooperation, full compliance to CIF code of ethics, rules, regulations, guidelines, etc.?
All CIF events are conducted with the above in mind. This event can give CIF member schools another opportunity to demonstrate that competition can be played fairly and with great sportsmanship. It is also an additional avenue for our member schools to promote the best values of educational athletics.

6. Will the proposed event lend itself to a partnership between the State CIF and a CIF Section? If so, the nature of the partnership must be detailed. What are the duties and responsibilities of the State and Section entities? If there is to be a risk/profit sharing, what are the proposed financial details? If resources, other than financial, are to be used as part of a partnership, what are the anticipated resources?
   - Any proposal that considers a Section/State partnership should consider whether or not an event should be rotated, upon request, among Sections. The state office will assume financial responsibility of profit and/or loss of the event.
