|---|-----------------------------------|----------|
| 2. Proposal to Adjust Fall SOP Dates Bylaw 1108.B | Action
Exec. Cmte.
Supports | STATE468 |
|---|-----------------------------------|----------|

Commissioner Wigod explained the genesis of the adjustment to the SOP dates for the Fall. An immediate adjustment was made by the CIF State Executive Committee to the current SOP dates this the fall for equity purposes. The dates were determined by each Section and the Southern Section utilized a percentage of the season remaining after the SOP date to create more parity among the sports affected. There will be more discussion in the future for Winter and Spring sports as well. There was a motion and a second to approve STATE 468. The motion carried.

B. SOUTHERN SECTION ACTION ITEMS

- | | | |
|-------------------------------------|--------|-------|
| 1. 2014-2018 Area Releaguings Plans | Action | SS478 |
|-------------------------------------|--------|-------|

There was a motion and a second to approve SS478. The motion carried (1 abstention)

a. Coast Area Releaguings Appeal

- | | | |
|---------------------------|--|-------|
| 1. El Segundo High School | Action
Exec. Cmte.
Not Accepted 14-3-3 | SS469 |
|---------------------------|--|-------|

Steve Shevlin, Athletic Director, presented an appeal presentation on behalf of El Segundo High School. El Segundo would like consideration to be taking to reassign El Segundo into a league with more comparable attendance numbers and competitive equity.

Discussion: Coast Area Releaguings Chairman Carter Paysinger discussed the process for releaguings in the Coast Area. Competitive Equity was a key area of consideration. The league members met and discussed multiple times to discuss proposals. There was an 11-7 in favor of the current Coast Area configuration.

Principals in the area are not fully opposed to the proposal of the El Segundo administration, but would like to honor the process currently in place to establish new league configurations. There was a motion and a second to approve SS469. The motion was defeated 9-54-17.

b. Northern Area

- | | | |
|--------------------------------------|--------|-------|
| 1. Royal High School – Football Only | Action | SS470 |
|--------------------------------------|--------|-------|

Andy Andreolli, Athletic Director from Royal High School spoke regarding the Northern Area relegating process. Andy expressed frustration and opposition to the process of the approved area configuration and the lack of exploring all proposals for relegating. The CIF Southern Section Executive Committee accepted the Royal High School proposal and when Royal went back to the Marmonte/Camino Leagues with the approved proposal from the Executive Committee, that proposal was defeated within the Marmonte/Camino Leagues.

Discussion: There is concern that an appeal can only be launched on behalf of the school that is being impacted without consideration for all other schools that will also be impacted. (Newbury Park) concerned with the data that was presented in the appeal. The Northern Area (non-football) leagues were created with regard to competitive equity, enrollment and geography. There are a few members of the Marmonte/Camino Leagues (football-only) who do not believe that there was an establishment of competitive equity among the schools within the Marmonte/Camino Leagues. The 8-0-2 vote that was taken at the first Marmonte/Camino Leagues meeting would not be considered an official vote due to the failure to follow the CIF Southern Section Blue Book guidelines on the formation of athletic conferences. The 5-5-0 current vote of the schools is the vote that should stand.

There was a motion and a second to approve SS470. The motion carried 30-6-39.

2. Simi Valley High School – Football Only	Action	SS471
	Exec. Cmte.	
	Accepted 18-0	

Simi Valley officially withdrew their appeal due to the approval of SS471.

4. NON-ACTION ITEMS

A. STATE FEDERATED COUNCIL NON-ACTION ITEMS

1. Proposed CIF Swimming and Diving Championships STATE472

Should this proposal pass, the championship will be held in Spring, 2015. The CIF Southern Section Council and Executive Committee have approved this proposal. There will be a bidding process for the facility to host the CIF State Swimming and Diving Championships and will ultimately be decided upon by the CIF State Office.

2. Bylaw 600 Revision STATE473

This proposal is coming from the CIF State Executive Committee and the response from the different Sections and Committees vary. The proposal will not be presented for a CIF State Federated Council Vote until Spring, 2014. There are 26 states that have decided to eliminate a similar rule in order to avoid particular issues within their particular state.

Discussion: Could the CIF Southern Section (should this pass) adopt a rule to continue current practice? No, the CIF Southern Section cannot be in conflict with the CIF State Bylaws.

While this might work for some Sections, this proposal seems to be in direct contradiction to STATE474 and could prove to be detrimental to high school sports.

Other Section feedback: Commissioner Wigod shared the CIF Section Commissioner's vote on the CIF State Proposal Form and reiterated that Section Commissioners were casting personal votes and not necessarily votes that are reflective of their Section's position regarding this proposal.

3. Practice Time Allowance Proposal

STATE474

This proposal has originated from the CIF Sports Medicine Advisory Committee. The proposal was reviewed in detail with the Council members and discussion was held.

Questions were raised about how this would impact football practices when students are not in school at the beginning of the practice season. How will this be monitored? The CIF Southern Section Football Advisory Committee will be looking into this further, if this proposal passes, as it might impact the implementation of "double-days".

B. SOUTHERN SECTION NON-ACTION ITEMS

1. Revision of Proposal from Sunset League Volleyball – Bylaw 2911

Discuss

SS466

Rich Boyce, Athletic Director from Edison High School, presented the proposal from the Sunset League. This proposal would attempt to eliminate the option for student-athletes to participate in club volleyball tryouts that are held during the CIF Girls Volleyball season. There is concern about the conflict between high school volleyball and club organizations. The coaches and administrators from the Sunset League would like to ask for consideration for the safety of the student-athletes participating in the sport of Girls Volleyball.

Discussion: There was concern about making student-athletes choose between high school sports and club programs. How will this rule be enforced and what is the penalty for violations of the rule? The proposal suggests a 2 for 1 penalty.

2. Proposal from Executive Committee to Eliminate 3214.1

Discuss

SS475

The proposal was reviewed by Commissioner Wigod and questions/comments were solicited regarding the proposal. Questions that were asked: "Why isn't Basketball included in this proposal?" Basketball currently has Blue Book rules in place. "Can Wild Card games be included" They will not be included in compiling statistics.

3. Proposal from Mountain Pass League to Change Blue Book Rule Regarding Number of Contests Allowed for Tournaments (Bylaws 1503.2, 1609.2, 1803.2, 2204.2, 2404.2, 2504.2, 2906.2, 3004.2)

Discuss

SS476

Dave Anderson, Athletic Director from Hemet High School, presented the proposal to the Council. This proposal would allow for schools who host tournaments, regardless of the number of participating teams, to provide participating schools with a 5-game guarantee and having that tournament count as 2 allowable contests against the maximum contest limit for the season of sport.

5. REPORT SESSION

A. President's Report

Jim Monico

The CIF Southern Section has had a great opening this year and commended the staff on handling issues that have surfaced throughout the beginning of the school year. The Champions for Character Dinner continues to be a successful event highlighting student-athletes. Make sure to communicate

with your principals and discuss the issues we have reviewed today. The Hall of Fame Luncheon will be held this afternoon and we look forward to honoring members of our Section who have made a memorable impact in our area.

B. Treasurer's Report

Carter Paysinger

The audit was completed and financial statements have been finalized for 2012-13. As of November, 2013-14 there are only 18 schools that have not paid their sport fees as of today. Total assets equal \$3,000,000 with total liabilities equal \$160,000.

C. Commissioner's Report

Rob Wigod

This is going to be a year of change with all of the upcoming proposals to be discussed and voted upon. This is an exciting time for the Section to really determine our philosophy and direction we will move into. The Executive Committee has been very involved and will continue to work to serve the Section and the staff continues to work hard to serve the Section and provide student-athletes with quality championship experiences. We are looking forward to a great year. Please continue to invite us to your meetings so that we can continue to have conversations throughout the year and ensure that we are reflecting the membership. We are looking forward to honoring members of our Section during the Hall of Fame Luncheon.

 Passed with Support 9-0-1

Type: New Championship Event**Next: Vote February 2014**

Proposal Summary: The CIF Southern Section is proposing the development of a CIF State Swim and Dive Championship to be implemented in the spring of 2015. The introduction of this proposal follows the approved State Championships Master Schedule. Please refer to the following proposal for the number of section entries. The event would allow the most competitive swimmers in the state an opportunity to compete at the “state” level. The championship event is proposed as a two-day event held on a Friday and Saturday.

Fiscal Impact: (See Proposal for Southern Section Analysis)

State CIF conducted a fiscal analysis and determined a revenue increase to approximately \$26,000 based on a two-day event. The expenses are expected to remain in the range of \$16,000. While not listed in the proposal, CIF anticipates the expenditures for the event would be in line with other CIF Championship Events currently coordinated by State CIF.

Background: State CIF does not currently have a state championship in either swimming or diving. The Southern Section has proposed the championship event follow a model similar to the current Track and Field Championship model. Southern Section Council has approved and passed this proposal. The Executive Committee has passed the proposal with support 9/10/13.

Proposal for California State Swim & Dive Championship New CIF Championship Events

Name of Event: CIF State Swim & Dive Championship for school year 2014-15

Proposed Event Dates: NFHS Week 46 (May 22 and 23, 2015)

Entries – Qualifying Procedures

NUMBER OF COMPETITORS

Sections are allowed the following entries as per State Federated Council rule:

<i>CIF Southern</i>	<i>5</i>	<i>CIF Central Coast</i>	<i>3</i>	<i>CIF Northern</i>	<i>1</i>
<i>CIF North Coast</i>	<i>3</i>	<i>CIF Central</i>	<i>2</i>	<i>CIF San Francisco</i>	<i>1</i>
<i>CIF San Diego</i>	<i>3</i>	<i>CIF Los Angeles</i>	<i>2</i>	<i>CIF Oakland</i>	<i>1</i>
<i>CIF Sac-Joaquin</i>	<i>3</i>				

AT-LARGE ENTRIES

Swimming-

First Year of Event Only 2014-15- Swimming at-large will be determined by the average of the 8th fastest time from each section championship meet.

2015-16 and Beyond- Similar to how Track and Field determines at-large entries, the previous years average time (up to 3 years) for the 8th fastest time from the State meet will be averaged to determine a baseline for the at-large entries.

In the swimming events, all times must be recorded on “Fully Automatic Timing” systems (FAT). No hand times will be accepted.

Diving- No at-large qualifiers. Each section will get one additional entry for diving.

Financial Criteria and Feasibility for New Events Sponsored by CIF:

1. What travel, lodging, and meal reimbursement will be provided to participating schools (please use the CIF Adopted Criteria)?
 - None. The proposed championship is similar to the cross country and track and field championships currently in place. At this time, the reimbursement of expenses are not offered to member schools.
2. Will this event place any CIF Section event at risk financially?
 - This event will not place any CIF Section event at risk financially because it takes place after all section championships have been concluded. This event will possibly generate greater excitement in the sport of swimming and diving at the section level and generate additional profit due to bringing a long awaited state championship meet to California.
3. Will this event be a burden on any CIF Section budget or the State CIF budget?
 - This event will not place any burden on any CIF Section budget because it takes place after all section finals have been completed. The State CIF will work with interested host communities to keep championship expenses in line with the projections below and use additional marketing opportunities to supplement the budget.

4. Please provide a detailed, specific, feasible cost estimate for the operation of this event. Below are the budget estimates for this event:

Projected State Swimming/Diving Championships based on Southern Section Championship historical revenue and expense figures		
	Revenue	Expense
Programs	\$300	
Gate Receipts	1.5 X # of Competitors	
Personnel Expenses		\$3000
Officials		\$2500
Misc Expense		\$2000
Awards		\$800
Entries		\$500
Security		\$1500
Announcer/s		\$200
Credentials		\$100
Clerk of Course		\$500
Timing System		\$800
Ticket Takers/Sellers		\$500
Facility		\$3000
Diving Entry System		\$200
Meet Manager		\$400
	Total \$13,300	\$16,000

5. Please demonstrate using both costs in #4 above and anticipated event revenue how this event may be sustained economically over many years.
- CIF-SS predicts, using the projections above in #4 and data collected from other Sections, that the event can be sustained economically over many years. Based on the historical returns at the CIF-SS championships, which will closely model in size and scope the proposed State swim championships, the individual section championships are financially sovereign; therefore, the CIF-SS projects revenue totals of the proposed state swim championships to be similar to the section championship.
6. Is the current CIF State Office staff capable of managing this event?
- The current CIF State Office staff is capable of managing this event and the event expenses cover the costs of a State Tournament Director to assist the State office staff.
7. Is there capable staff available to support the CIF State Office in the operation of this event?
- Yes. The State office staff currently has adequate resources to staff the event.

Philosophical Criteria for New Events:

1. How does this event contribute to the goals of the CIF (i.e. a new event may enhance gender equity, economic stability and enhance the awareness of values taught through sport)?
 - This event would bring the best athletes from each section to compete in an even larger scale event than their own section championships. It's another opportunity for both boys and girls to have "state" level competition as other individual sports currently do (i.e. track & field, wrestling and tennis).

Qualifying Participation Criterion for a Regional Championship:

1. Do 50% of all CIF sections participate in the sport in the same season?
 - Yes, with the exception of the Northern Section, which offers swimming and diving in the fall, all other CIF sections offer the sport in the spring season.

Other Questions:

1. How will this event benefit participating schools and students?
 - This event will give boys and girls the opportunity for post-section championship opportunities not currently available in swimming/diving.
2. Do the proposed dates conflict with state mandated testing?
 - The proposed dates are ones that are currently used for playoff opportunities in other sports. No conflict with state testing is anticipated.
3. Does the event cause additional loss of instructional time? If so, has any thought been given to mitigating this loss (Saturdays, evenings, vacation time)?
 - The two-day event is planned for an evening prelim on a Friday and Saturday day, mitigating the loss of class time. Depending on travel, there may be some loss of instructional time, but minimized with the current time and date schedule.
4. If the proposal is for a sport that is played now in more than one season in the state, what dates are selected and why?
 - With the exception of the Northern Section, the remaining nine sections all compete in the spring season. The proposed dates of the event coincide with the next available weekend after the completion of Section finals.
5. How, specifically, will this event be a demonstration of the values of participation in high school athletics? In choosing teams or individuals for an event, is there any criterion such as demonstration of respect, sportsmanship, citizenship, achievement through effort and cooperation, full compliance to CIF code of ethics, rules, regulations, guidelines, etc.?
 - All CIF events are conducted with the above in mind. This event can give CIF member schools another opportunity to demonstrate that competition can be played fairly and with great sportsmanship. It is also an additional avenue for our member schools to promote the best values of educational athletics.
6. Will the proposed event lend itself to a partnership between the State CIF and a CIF Section? If so, the nature of the partnership must be detailed. What are the duties and responsibilities of the State and Section entities? If there is to be a risk/profit sharing, what are the proposed financial details? If resources, other than financial, are to be used as part of a partnership, what are the anticipated resources?

- Any proposal that considers a Section/State partnership should consider whether or not an event should be rotated, upon request, among Sections. The state office will assume financial responsibility of profit and/or loss of the event.
7. Will there be any ancillary activities associated with the event to make it more attractive and reflective of the goals and mission of CIF (i.e. training for coaches, sportsmanship activities for schools)?
- TBD

Financial Impact on Member School and Southern Section (Attach an analysis and supporting documents):

The Sunset League Proposes the following addition to the Girls Volleyball Bylaws. Bylaw 2911
Outside competition by an Individual

Tryouts for club teams during the high school season are not permitted. Practices during the high school season of sport with an outside team are considered a violation of this bylaw.

Punishment for violation of this bylaw is at the discretion of the Commisioner of Volleyball.

No fiscal impact.

All Council Proposals must be submitted according to the timelines published in the Blue Book. If they are not received in a timely manner, they will be postponed until the next meeting.

Council Proposals that do not contain the information in the fields provided on both pages will not be considered.

Sport advisory committees are advised to confine their proposals to the sport(s) under their advisement. Any proposals that do not affect Articles 1400 – 3100 must contain a rationale as to why the sport advisory committee is requesting action.

Procedure for Proposed Bylaw Changes:

1. Identify the bylaw, by number, to be changed or eliminated.
2. Type the bylaw, using normal font face, for language that will remain unchanged.
3. Use strikethrough to identify language to be eliminated or changed.
4. Identify proposed language using bold type.

PLAYOFFS

“Playoffs? Playoffs? I just hope we can win a game!” Former NFL Head Coach Jim Mora, Sr. fashioned that quote several years ago at a post-game press conference in response to a question about the possibility of post-season play after his Indianapolis Colts team had lost that day. The point he was trying to make was whether his team deserved go to the playoffs after a season where their performance and their record were not too impressive. Now that our Winter Playoffs have concluded, I believe this is a good time to examine that concept as it relates to the current situation with our playoffs in the CIF Southern Section and evaluate what we are doing in this regard. Specifically, I wish to address CIF Southern Section Blue Book Rule 3214.1.

CIF Southern Section Blue Book Rule 3214.1 was adopted by the CIF Southern Section Council a few years ago. This bylaw allows for schools who did not earn a guaranteed entry from their league into the playoffs, in every sport but Football, Basketball and Wrestling, to qualify for the playoffs as an at-large team, as long as their school finished in the next place beyond that league's guaranteed number of entries and their school's overall season record of all games played was .500 or better. This rule has resulted in a large increase in the number of playoff teams in virtually all of our sports, which means much bigger brackets and more wild-card contests. In this difficult economic climate, that begs the question as to the costs involved with these additional games. We are well aware of the financial issues facing our member school's athletic programs, yet here is an example where our schools are paying significant transportation costs, official's fees, sometimes paying a facilities fee, adding supervision hours for their employees, which can result in overtime pay, needing to purchase additional equipment like baseballs and softballs, etc., for wild-card games in sports that do not generate any revenue to try and help defray those costs. In a section as large as ours, with some of the travel distances involved, these additional costs can run into several hundreds of dollars per game. Also, the competitive nature of many of these games leaves much to be desired. In many, many cases, these contests are not matching teams who should be matched up and what results from that situation are non-competitive games with lopsided scores making it a difficult situation for both schools involved. I am including an examination of data from the past four years in the sports of Baseball, Softball, Boys/Girls Soccer and Boys/Girls Water Polo which indicate the win-loss records of at-large teams who qualified for the playoffs through Rule 3214.1 who played in First Round contests in those sports during this period. I believe you will see that these numbers are very compelling.

I truly believe in the value of the high school athletic experience and participating in our playoffs is certainly a part of that. However, I wonder what kind of experience it is for student-athletes, coaches, administrators, parents and fans when we look at the brackets after First Round games and see baseball and softball teams losing by 15-20 runs, soccer teams losing by 5-10 goals and water polo teams losing by 10-15 goals after taking long trips to those games and paying significant costs to do so. Is that really the lasting memory we wish to take away from the end of our seasons?

At a time when standards are being raised every year, in relation to high school test scores and college admissions, CIF Southern Section Rule 3214.1 does the opposite, as it lowers the standards for participation in our playoffs. I wonder what message that is sending to all involved.

In the time ahead, I ask that you initiate a discussion with your leagues and schools in your area to gauge where they are on this issue. I plan to do the same with our Executive Committee at our upcoming meeting on April 24.

Thank you for your consideration and I look forward to the discussion to come.

All Council Proposals must be submitted according to the timelines published in the Blue Book. If they are not received in a timely manner, they will be postponed until the next meeting.

Council Proposals that do not contain the information in the fields provided on both pages will not be considered.

Sport advisory committees are advised to confine their proposals to the sport(s) under their advisement. Any proposals that do not affect Articles 1400 – 3100 must contain a rationale as to why the sport advisory committee is requesting action.

Procedure for Proposed Bylaw Changes:

1. Identify the bylaw, by number, to be changed or eliminated.
2. Type the bylaw, using normal font face, for language that will remain unchanged.
3. Use strikethrough to identify language to be eliminated or changed.
4. Identify proposed language using bold type.

For example, if a league wants to address the color of jerseys in basketball, the proposal may read:

The _____ League proposes the following changes to the basketball bylaws.
(your league name)

Bylaw 1623 Color of Jerseys

Proposed language:

“In all basketball games played between member schools of the CIF Southern Section, The host team shall wear ~~white~~ **dark** colored jerseys.”

1503. TOURNAMENTS

A team may not be entered in more than three tournaments.

1503.1 For each tournament, a team will be charged two games toward the allowable maximum number of contests.

QUESTION: Can a school enter two teams in the same tournament at the same level (i.e. varsity "A" and varsity "B")?

ANSWER: If a school chooses to split a single team into two teams in the same tournament at the same level they will be charged one

allotted tournament for each team entered. If a school enters a varsity "A" and a varsity "B" team, they will be charged for two

(2) of the allowable three (3) tournaments for the season.

New 1503.2 All tournaments, regardless of the number of teams participating, are allowed a maximum of 5 games while still counting as 2 of your allowable contests.

Delete the following 1503.2 The maximum number of contests allowed any team in a tournament whether participating in the championship or consolation

bracket shall not exceed 4 contests in an 8-team tournament, 4 contests in a 16-team tournament, or 5 contests in a 17 through

32-team tournament.

1503.3 Tournament managers are responsible for notifying participating schools of the number of games and/or teams participating

in the tournament.

NOTE: Two contests could be played in the SAME TOURNAMENT only, but not two games in two different tournaments (see

Fellow AD's

Hopefully you agree, but let me know what you think about the possibility of a rule change. I do not want to pursue this, if it everyone thinks it is ridiculous. You can not hurt my feelings so let me know your thoughts.

My original thinking was, far away schools (High desert/Low desert) or small schools with small facilities could run desirable tournaments to attend,
But all schools could benefit. Thanks for your support.

All tournaments, regardless of the number of teams participating, are allowed a maximum of 5 games while still counting as 2 of your allowable contests."

Explanation, here is what is happening,
Most all teams that are trying to compete in CIF usually want to have full athletic schedules.
This means if possible they go to tournaments with 17 plus teams, so they can get a 5 game guarantee.
(a possible 3 extra games in a season)

If you think closely about this situation:

Why should a large tournament be allowed more games than a small tournament. Teams would play exactly the same amount of games in the same amount of time.

More times than not, large tournaments, with plus 17 schools, divide their tournaments into sub-tournaments called "pool play", with less than 17 teams in each pool. Or they make gold, silver, bronze divisions which never compete against each other, but still are allowed to offer a five game guarantee,

Example #1

When a large 32 team tournament breaks into two 16 team tournaments, they make a gold division for good teams and a silver division for poor teams, the pools of 16 never cross, They have 2 champions Gold and Silver and play 5 games

This is pretty obvious that this is just two. 16 team, tournaments. but tournament at the same time is able to offer a 5 game guarantee. They circumvented the rule by calling it a 32 team tournament.

Example #2

A 6 team round robin tournament would create 5 games, but this tournament is not allowed by CIF because it is less than 16 teams.

But a large tournament with 18 teams could divide into 3 pools of 6 teams can do exactly the same thing, By having 3 divisions Gold, Silver, and Bronze and run 3 round robin tournaments with a 5 game guarantee

.Another example, a 10 team tournament with two pools of 5 and a championship game between the pools equaling 5 games is not allowed by our current rules.

But a 20 team tournament could have two of 10 team pools with a gold and silver division it is allowed to have 5 games

It is easy to make up countless examples like the above, but in summary;

The rule original rule was meant for straight bracketed "good old fashion" 32 team tournaments that needed 5 games to reach a champion. The rule has unfortunately morphed into favoritism for large tournament, because of pool play.

All tournaments (if they choose to do so) should be able to have a max of 5 games regardless of the number of teams entered. Once again teams would play the same amount of games in the same amount of time, no difference.

This rule change would make "way" for more schools to host tournaments if they chose to do so.

What are your thoughts

Thanks

Educational Work Experience:

Associate Superintendent of Educational Services, 2008-present

Oceanside Unified School District (OUSD)

Oceanside, CA 92058

Areas of concentration: Oversee district's K-12 (20,000 student enrollment) direction and success in the areas of curriculum and instruction, student services, special education support services, and other duties as assigned. Supervise and evaluate elementary and secondary school principals and directors of K-5, secondary, student support, special education services and Information technology departments. Support the vision of the Board of Education via the Superintendent.

Specific highlights of current position:

- Facilitates and oversees the district's implementation plan for the Common Core State Standards (CCSS). I have recently presented at the SDCOE's Curriculum and Instruction Committee (Assistant Superintendents and other district level management positions) due to the OUSD's rapid progress and timeline (2011-2018) of implementing the CCSSs.
- Creator and facilitator of OUSD's Online Learning Committee (OLC). The OLC priority is to ensure OUSD remains on the forefront of using information technology to enhance the classroom. More than 25 teachers from elementary and secondary have been certified by the San Diego County Office of Education to teach courses online via any Learning Management System.
- Facilitator of the Oceanside and El Camino High School Ipad pilot initiative. 2 teachers from each high school, Physics, Geometry, Math Analysis and Biology strictly use I pads for students to access adopted curriculum, assessments, along with utilizing online applications. Preliminary district benchmark assessments results have been very promising as compared to the traditional classes in

these subjects. Pilot programs in 4 elementary schools are scheduled to begin 2012-13.

- Co-authored OUSD/Mira Costa College \$7.75M Gear Up grant award. OUSD was one of only 37 districts nationwide to receive this highly competitive grant, aimed at increasing college acceptance beginning with this year's 6th and 7th grade class at Jefferson and Chavez Middle schools. Students will continue to receive support until they graduate, with the expectation of going onto a 4 year university.
- Co-authored OUSD/California State University at San Marcos (CSUSM) Guaranteed Student Admission program. Students that meet specific criteria will be guaranteed admission, with monetary support based on need, to CSUSM.
- Facilitate the ongoing implementation of OUSD's classroom "Walk Through" process. Every site has three classroom "Walk Throughs" per year. The design and modification of these "Walk Throughs" have been developed with input by all site teachers and administrators. Participants include site principal, site and visiting guest teachers and principal, facilitated by one district staff member. OUSD recently presented at the Achievement Gap Task Force (AGTF) Superintendent's Forum to present and highlight our successful walk through model, one in which there has been full Oceanside Teacher Association support and participation.
- Co-authored the district's District Assistance and Intervention plan, appropriately renamed the Oceanside Unified School District's *Effective Schools Plan (ESP)*. OUSD's ESP three focus areas are; Academic Vocabulary, Professional Learning Communities (PLC) and Response to Intervention. The district's API has grown nearly 100 points since this implementation.
- Facilitated the implementation of the district wide Scholastic's Read 180, Reading Intervention program.
- Facilitated and supervised the implementation of the district wide parent empowerment programs - "Empowering Parents" (African American and Samoan parents), and "From Survival to Success" (Latino parents).
- Facilitated the implementation of "College Bound Oceanside" - mentors parents and students in understanding the path to college. Students attend monthly meetings and attend first- and second-semester college tours. This program recently was awarded the

**California School Boards Association (CSBA) GOLDEN BELL
AWARD for Parent Involvement**

- **Facilitated the implementation of School Loop, a district wide teacher/parent/student portal.**
- **Created, facilitated and implemented Language Arts and Math grade level work groups, K-12. Common pacing calendars and benchmark assessments have been developed K-12. These work groups, although facilitated by district staff, is solely the responsibility of teachers to create, develop and implement the academic direction of the K-12 program. Its major goal is to empower teachers to OWN the process of the academic success of our students.**
- **Implemented grade 12 Expository Reading and Writing (EXRW) curriculum. Focus change due to data that reflected low pass rates of our first-year college students on entry level writing exams.**
- **Implemented “School Success” classes for identified at-risk incoming 9th graders, which provide academic and social support classes for incoming 9th and credit-deficient 10th graders who do not meet specific grade point criteria. There is a designated counselor who works with students and parents, along with two assigned certificated teachers.**
- **Facilitated and implemented OUSD’s graduation credit change from 240 to 220 credits needed to graduate, while increasing academic rigor with OUSD’s diploma being one course shy of being an A-G default diploma.**
- **OUSD’s CIF Board of Managers representative**
- **San Diego County’s representative to the State CIF Federated Council**

Director of Secondary Curriculum and Instruction, 2007-2008

Oceanside Unified School District
Oceanside, CA 92058

Areas of concentration: Provide curriculum and instruction support to middle and high schools in the Oceanside Unified School District. Support the vision of the Board of Education via the Superintendent and Deputy Superintendent. Oversee program compliance and categorical funding budgets at the site and district level.

Middle School Principal, 2002-2007

Jefferson Middle School

Oceanside, CA 92054

Areas of concentration: Responsible for overall programs of middle school, including implementing an innovative schedule that allowed every student additional math and language arts time (approximately 65-70% more time than most schools). Jefferson Middle School also had the most extensive Fine and Performing Arts electives in San Diego County, if not the state of California. Jefferson Middle School was also named a California Distinguished School in 2002.

Middle School Principal, 1998-2002

Oak Crest Middle School
Encinitas, CA 92024

Areas of concentration: Responsible for overall programs of middle school. Oak Crest was the only Title I school in the San Dieguito Union HS district. In 2001, Oak Crest was named a California Distinguished School and was one of only 37 schools (K-12) in the state of California to be nominated for a National Blue Ribbon Award.

High School Principal, 1997-1998

Murrieta Valley High School
Murrieta, CA

Areas of concentration: Responsible for overall high school program. Student enrollment, 2700.

High School Assistant Principal, 1996-1997

San Dieguito Academy
Encinitas, CA 92024

Areas of concentration: Was part of the initial team that created San Dieguito Academy. Supervised day to day operations of a newly restructured high school with its philosophy based on "Second to None – A Vision of the New California High School", the report of the California High School Task Force. San Dieguito Academy was one of the first high schools in the state to successfully implement a 4X4 block schedule.

High School Assistant Principal, 1993-1996

San Dieguito High School
Encinitas, CA

Areas of concentration: Supervise day-to-day operations of a comprehensive high school as directed by the principal.

Teacher, 1985-1993

El Camino High School
Oceanside, CA

Areas of concentration: Business Economics and Physical Education. Head Varsity girls' basketball coach, assistant football and track coach.

Educational Philosophy and Basic Beliefs

1. Students should be the center of everything we do.
2. Schools should provide all students with a rigorous and relevant education designed to give them the opportunity to acquire, apply, and practice the knowledge, skills needed to fulfill their adult roles in the 21st Century.
3. Students and staff should regularly have both formal and informal opportunities to communicate with the leadership of the school. The superintendent should regularly visit the sites and spend enough time in classrooms to understand the day-to-day realities of students and staff.

4. Students should experience in school what they are likely to experience after graduation through work that requires them to solve problems and to apply learned skills and behaviors in real-life situations.
5. Students should be served through a process of continuous assessment and improvement that values the active participation and contribution of students, parents, staff and other stakeholders.
6. Students and staff must be provided with a safe supportive learning environment.

Type: Expansion of Existing Regional Championship Event**Next: Federated Council – 1st Reading 1/31/2014.****Voting Item May 2, 2014**

Proposal Summary: Create a Division VI Northern Regional Championship for the 2014-15 school year for girls volleyball and boys and girls basketball. The primary purpose of the expansion is to allow student/athletes the opportunity to participate in a Northern Regional Championship event regardless of the size of their school. Currently the North Coast Section, Northern Section and Sac-Joaquin Section all have section playoffs that include Division VI.

Fiscal Impact: (See Attached)

Background: State CIF does not currently have a Regional Division VI championship in either volleyball or basketball. The NCS and NS have proposed the championship event follow a model similar to the current Volleyball/Basketball Regional Championship model. North Coast Section Council has approved and passed this proposal in April 2011.

North Regional Basketball Proposal

Division VI

Proposal: Create a Division VI Regional Championship for schools with an enrollment of less than 200 beginning with the 2014-15 season.

Rationale:

1. Currently the break off for Division V is enrollment of 500 or less. There are many schools in the state less than 200 who are playing schools two and a half times bigger or more. We don't have schools of 1,000 playing schools of 2,500. Division V is the only division where this disparity takes place. The maximum enrollment is proposed to be 200 for Division VI, with Sections having discretion to be more restrictive.
2. The Northern Section, North Coast Section and Sac-Joaquin Section currently have Division VI championships that operate successfully both financially and competitively. See included feasibility study.
3. The Southern Section has a 32- team championship basketball bracket in Division VI, but no other sections have formal section championships at the D VI level in basketball.
4. Proposal would be to develop a Northern Regional Division VI Basketball Championship for the 2014-15 season.
5. The proposal is to develop an 8 team bracket that would be conducted entirely at home sites.
The bracket will include the following automatic entry breakdown:
NCS= 4
NS= 2
SJS= 2

Type: Expand Existing Regional Championship Event

Next: January 8/9, 2014, Commissioners Committee

Proposal Summary: Expand the existing Division Southern Regional Soccer Championship to include a Division IV & V for the 2014-15 season. The primary purpose of the expansion is to more closely align the soccer playoffs with existing section playoffs and other state and regional championship events that represent five divisions. State CIF event management will have discretion over site location for all games (home or neutral sites) at all divisions.

Fiscal Impact: (see attached)

Background: State CIF does not currently have a Regional Division IV or V championship in soccer. Central Section Board of Managers approved and passed the proposal in May of 2013. All other CIF Regional and State Championships operate with five(5) or more divisions.

Southern California Regional Soccer Expansion Proposal

Division IV & V

Proposal: Expand current South Regional Championship to include Divisions IV & V.

Division Breakdown: The breakdown by division will follow existing classification. The proposed maximum for D IV is 1300 and D V is 800.

Rationale:

1. Currently there are three divisions (I, II & III) in the Southern California Region Championship. By adding two additional divisions for each of the five sections, the championship format will more closely follow the existing sectional championships for Central Section (Div I-VI), San Diego Section (Div I-V) and Southern Section (Div I-V boys, Div I-VII). LA Section is the only southern section that currently has a Div I-III section playoff format. In addition, the expansion will more closely align with other sports regional and state championships that have consist of 5 divisions.
2. The Central Section, San Diego Section and Southern Section currently have Division IV & V championships that operate successfully both financially and competitively.
3. The proposal would be to develop Southern Regional Division IV & V Soccer Championships for the 2015 season. The proposal is to hold games at home sites for all divisions with ultimate discretion of management in determining game sites.
4. The format would include an 8 team bracket for each division. The automatic entry and at-large entries would follow the existing model:

SOUTHERN REGIONAL	SECTION AUTOMATIC ENTRIES PER DIVISION
Central	1
Los Angeles	1
San Diego	1
Southern	4
At-Large (from CS, LA, or SD only)	1
Total	8

5. Feasibility study was conducted. The event is expected to be a fiscally viable event. Because this is an expansion event, the addition of division IV & V are expected to have similar fiscal outcome similar to the existing D I-III.
6. A proposal to expand the Southern California Soccer Regional Championships to include Division IV and V was passed by the Central Section Board of Managers in May of 2013.

Vote: May 2014**Type: Create New Regional Championship Event**

Proposal Summary: The San Francisco Section has forwarded a proposal to add Regional Championships in the sport of Badminton to be implemented in the spring of 2016. This proposal follows the Federated Council approved timeline for adding new events. The proposal is to develop a CIF Northern Regional Championship and a Southern Invitational Championship.

Fiscal Impact: (see attached)

Background: Currently there are no regional CIF championship events in Badminton. It is believed this opportunity will draw from a populace that does not currently receive state championship opportunities. The event will also represent the diversity of our state.

PROPOSAL FOR NORTHERN CALIFORNIA BADMINTON CHAMPIONSHIP

Name of Event: CIF Northern California Badminton Championship To Begin in School Year 2015-16

Proposed Event Date: The Saturday At The Conclusion Of Week 46 on the NFHS Calendar (This would be May 21, 2016 in the inaugural year of the event).

Entries – Qualifying Procedures. Competition will be held in the following five classifications:

- (A) Girls' Singles
- (B) Boys' Singles
- (C) Girls' Doubles
- (D) Boys' Doubles
- (E) Mixed Doubles

An individual may only be entered in one classification. Doubles teams must consist of participants who attend the same school.

Section entries shall be based on the Section's percentage of overall schools that field teams in the classification multiplied by the number of participants the event management opts to place in the championship bracket. Where a Section has schools that field teams, but does not offer a Section championship, an interscholastic tournament may be designated as the official means of qualifying for the Northern California Badminton Championship.

No Section shall receive more than fifty percent of the entries in a classification.

Bracket:

In 2015-16, this championship shall hold a 16 team bracket in all categories. Sections shall receive the following entries.

Central Coast Section: 6 girls' singles entries, 6 girls' doubles entries, 7 boys' singles entries, 7 boys' doubles entries, and 7 mixed doubles entries.

North Coast Section. 6 girls' singles entries, 6 girls' doubles entries, 7 boys' singles entries, 7 boys' doubles entries, and 7 mixed doubles entries.

Northern Section. 0 entries.

Oakland Section. 0 entries.

Sac Joaquin Section. 2 girls' singles entries, 2 girls' doubles entries, 0 boys' singles entries, 0 boys' doubles entries, and 0 mixed doubles entries.

San Francisco Section. 2 girls' singles entries, 2 girls' doubles entries, 2 boys' singles entries, 2 boys' doubles entries, and 2 mixed doubles entries.

Financial Criteria and Feasibility for New Events Sponsored by CIF:

1. What travel, lodging, and meal reimbursement will be provided to participating schools (please use the CIF Adopted Criteria)?
 - None. The proposed championship is similar to the cross country and track and field championships currently in place. At this time, the reimbursement of expenses are not offered to member schools.
2. Will this event place any CIF Section event at risk financially?
 - This event will not place any CIF Section event at risk financially because it takes place after all section championships have been concluded.
3. Will this event be a burden on any CIF Section budget or the State CIF budget?
 - This event will not place any burden on any CIF Section budget because it takes place after all section finals have been completed. The State CIF will work with interested host communities to keep championship expenses in line with the projections below and use additional marketing opportunities to supplement the budget.
4. Please provide a detailed, specific, feasible cost estimate for the operation of this event.

Below are the budget estimates for this event:

	Revenue	Expense
Programs	0	0
Gate Receipts	\$2,500	
Entry Fees*		
Event Personnel and Facility Expenses		\$1,200
Linespeople **		250
Misc Expense ***		\$408
Awards		800
Security		0
Announcer/s		Included in event personnel
Credentials		\$25
Event Manager		Included in event personnel

5. Please demonstrate using both costs in #4 above and anticipated event revenue how this event may be sustained economically over many years.
 - The financial report in item #4 should adequately address this. The goal will be to obtain sponsorships for the event to offset expenses.
6. Is the current CIF State Office staff capable of managing this event?
 - Yes. In truth, this is not a difficult event to manage. We would need to have a nominal sum to cover a tournament director.
7. Is there capable staff available to support the CIF State Office in the operation of this event?
 - Yes.

Philosophical Criteria for New Events:

1. How does this event contribute to the goals of the CIF (i.e. a new event may enhance gender equity, economic stability and enhance the awareness of values taught through sport)?
 - The philosophy of placing badminton relatively high on the list of new championships is that it draws from a populace that does not commonly receive state championship opportunities.

Qualifying Participation Criterion for a Regional Championship:

1. Do 50% of all CIF sections participate in the sport in the same season?
 - Yes.

Other Questions:

1. How will this event benefit participating schools and students?
 - This event will give boys and girls the opportunity for post-section championship opportunities not currently available.
2. Do the proposed dates conflict with state mandated testing?
 - This event should be a Saturday event, eliminating any conflicts with State mandated testing.
3. Does the event cause additional loss of instructional time? If so, has any thought been given to mitigating this loss (Saturdays, evenings, vacation time)?
 - This event is planned for a Saturday.
4. If the proposal is for a sport that is played now in more than one season in the state, what dates are selected and why?
 - This sport is only played in the spring.
5. How, specifically, will this event be a demonstration of the values of participation in high school athletics? In choosing teams or individuals for an event, is there any criterion such as demonstration of respect, sportsmanship, citizenship, achievement through effort and cooperation, full compliance to CIF code of ethics, rules, regulations, guidelines, etc.?

- All CIF events are conducted with the above in mind. This event can give CIF member schools another opportunity to demonstrate that competition can be played fairly and with great sportsmanship. It is also an additional avenue for our member schools to promote the best values of educational athletics.
6. Will the proposed event lend itself to a partnership between the State CIF and a CIF Section? If so, the nature of the partnership must be detailed. What are the duties and responsibilities of the State and Section entities? If there is to be a risk/profit sharing, what are the proposed financial details? If resources, other than financial, are to be used as part of a partnership, what are the anticipated resources?
 - Any proposal that considers a Section/State partnership should consider whether or not an event should be rotated, upon request, among Sections. The state office will assume financial responsibility of profit and/or loss of the event.
 7. Will there be any ancillary activities associated with the event to make it more attractive and reflective of the goals and mission of CIF (i.e. training for coaches, sportsmanship activities for schools)?

Ancillary activities will be considered on a year-by-year basis.

Proposal Summary:

Creates an enrollment cap of 200 for Division VI. Changes wording to “as determined by section” and eliminate the enrollment cap for Division IV in State and Regional Championships in Basketball, Cross Country, Soccer and Volleyball.

Fiscal Impact: None

Background: Historically most CIF State and Regional Championship Divisions were enrollment based. Beginning in 2008, the CIF State and Regional Championships eliminated the enrollment based divisions for Divisions I, II, and III to allow sections more flexibility for the sections to conduct their section championships. This changed allowed sections to better equalize their championship divisions without the primary concern for enrollment based divisions and allowed the continuing trend toward competitive based division championships playoffs at the section level. This proposal expands that philosophy but still has a maximum enrollment “cap” for Division V and Division VI.

Proposal Summary: It is being recommended that the CIF institute bylaws that govern the amount of practice and contact time that student-athletes have with their education based coaches/teams. The purpose of this bylaw is to protect the emotional, academic, familial and physical health and well-being of student-athletes.

Background: There has been significant discussion, both nationwide and within the CIF, regarding the amount of practice/contact time that students should have with their education based coaches. Many states across the U.S. have successfully implemented practice and contact time policies to benefit the health and welfare of their student-athletes. At both the

NCAA and professional levels, protections have been in place for several years and the CIF Sports Medicine Committee has again requested that the CIF put in place similar protections for our almost 800,000 student-athletes.

Practice Time Allowance

506 PRACTICE ALLOWANCE

For the benefit of the physical and mental health of our student-athletes, all practices (as defined herein) under the auspices of the high school athletic program during the season of sport shall be conducted under the following conditions (See also Bylaw 310):

1. All teams will be allowed no more than eighteen (18) hours of practice time per week and no more than four (4) hours in any single day.
 - a. Multiple practice sessions:
 - i. Double day practices shall not be held on consecutive days.
 - ii. Must include minimum of three hours rest between practices.
 - b. Golf Only:
 - i. In the sport of golf only, a team is allowed a maximum of two days per week of 18-hole practice rounds. **(Counts as four hours)**
2. Any competition day would count as three (3) hours toward the allowable weekly and daily hours no matter the length of the contest(s).
 - No practice may be held following the conclusion of any contest.
3. Definition of practice:
 - a. Any school or team or individual activity organized by the coach that is intended to maintain or improve a student-athlete's skill proficiency in a sport; AND/OR
 - b. Any school team or individual activity that includes skill drills, game situation drills, inter-squad scrimmages or games, Weight training, chalk talks, film review, meetings outside of school time (excluding parent meetings) **that are implicitly/explicitly required by the coach;** AND/OR
 - c. Any other coach-directed or supervised school team or individual activity or instruction for a specific sport (private, small group or positional instruction, etc.) AND/OR
 - d. Any other team or individual instruction for a specific sport organized or supervised by any team member, or anyone else associated with the high school athletic program, team, or school; AND
 - e. Outside organization activity (club, etc.), shall not be used to circumvent these bylaws.
4. Other mandatory activities (including, but not limited to study hall, tutorial sessions, team dinners), shall not be considered part of practice time. These activities must be approved by the principal. Activities that would be included herein are exclusive to any activity already covered in number 3. a. - e. above.
5. This bylaw shall not supersede any School/District/Section policies that may be more restrictive.
6. Penalties: Following the determination of a violation of CIF Bylaw 506, a loss of practice day(s) and/or other sanctions, for each practice session infraction, shall be imposed by the Section as deemed appropriate to the level, extent, and duration of the infraction(s).

Frequently Asked Questions - **(FAQ's will continue to be revised as needed and appropriate to assist schools in understanding the implementation of the Bylaw.)**

QUESTION: Our football coach conducts a one-hour (1) before school weight lifting activity in the weight room for football players. Does this count in the three-hours per school day practice limitation?

ANSWER:

Before school activities that are NOT part of the curricular day are subject to the practice limitations. If the activity is organized and/or directed and/or supervised by any of the football coaching staff and only open to football players then YES it is considered to be practice and counted in the daily limit.

QUESTION: *Our football coach conducts a one-hour (1) before school zero period weight lifting activity in the weight room for football players. Does this count in the daily practice limitation?*

If Zero period IS considered part of the curricular day then it does not count against the practice duration limitations.

QUESTION: *We have a one-hour (1) before school; (2) zero period; general weight lifting activity in the weight room, advertised to all the athletes in the school who wish to participate. The football coach supervises this activity. While it is advertised to everyone in the school, it is primarily utilized by the football players. Does this count as practice activity in the daily practice duration limitation?*

ANSWER:

(1) Before school is not part of the curricular day so activities during this time are subject to practice duration limitations. However, if the activity is a non-sport specific strength program, open to all athletes, it would be considered general conditioning and would not count as part of the practice duration limitations. As long as the school has done their best to advertise and make it open to everyone, and it is not a non-football hostile environment, or is not located in an area where female or other sport athletes do not have access (i.e. access only through the boys locker room), regardless of who attends or who is supervising, the activity would not be considered practice and would not, therefore, count in the daily practice limitation.

(2) If Zero period IS considered part of the curricular day then it does not count against the practice duration limitations.

QUESTION: *A (1) Volleyball or Football; (2) Cross Country; Coach tells their team members "just go for an hour run" as a team (or as individuals) and then meet back in the gym to begin practice. Does that hour of just running count towards the practice duration limitation for that day?*

ANSWER:

Yes. This activity done as a team or as an individual and has been implicitly/explicitly required by the coach; directed and/or organized and/or supervised by the coach would count towards the daily practice duration limitations.

QUESTION: *A Basketball coach tells their team members that they are required to run a minimum number of miles each week on their own for conditioning. Does this count towards the practice duration limitations for any given day?*

ANSWER: Yes, this would be considered an activity under 3.b and 3.d above because it was required and or implied by the coach for his/her basketball team members to participate. If it was not implicitly or explicitly required by the Coach it would not count towards practice duration limitations.

QUESTION: *The Water Polo Coach establishes a swimming conditioning session (1) before practice each day (2) in the morning before school; (3) during zero period. Does this count towards the practice duration limitations for that day?*

ANSWER:

(1) Yes, swimming conditioning is directly related to water polo skill development, so this would count towards the daily practice duration limitations.

(2) Yes, swimming conditioning is directly related to water polo skill development, so this would count towards the daily practice duration limitation.

(3) If Zero period is considered part of the curricular day it does not count against the practice duration limitations.

QUESTION: *A student plays volleyball in the fall and basketball in the winter. During the overlap time of those two seasons is a student allowed to practice for four hours per day for volleyball and then another four hours per day for basketball, for a total of eight hours of practice on any given day?*

ANSWER: No. During any season overlap period for any student-athlete, that student-athlete is still limited to a total practice time for both sports not to exceed the daily practice duration limitation (4 hours max per day and only 18 hours per week).

Remove the restriction on participation on an “outside the school” team during the same season of sport to all individuals and not just selected groups.

Fiscal Impact: None

Background: The origins of Article 60, Bylaws 600-605 began with the first implementation in restricting “outside the school” participation in 1929. There were further revisions and restrictions put in place in 1945, 1959, 1966, 1980 and the latest revision to the bylaw made in 1985. With the number of opportunities for participation in sports related activities outside the school site increasing, the question has been raised as to the appropriate role of the CIF in restricting a student’s desire to participate. Additionally, the application of the article is

inconsistent for the CIF, most evident in soccer, due to the significant difference in seasons of sport throughout California.

In 1980, the vast majority of state athletic governance associations had similar prohibitions. As of 2011, twenty-six (26) states have eliminated this prohibition and now allow outside participation concurrent with the high school team. Other large states such as Texas (1995 –legislative action), Florida (never had prohibition) and New York (1988 – Court Ruling) have completely eliminated the rule and have seen their high school sports continue to flourish and expand in participation. Some states have made this change at the urging of their membership, legal action and some states at the direct demand/oversight of their state legislature.

Listed below are a detailed pros and cons to the bylaw.

CIF ARTICLE 600
TALKING POINTS/RATIONALE FOR AND AGAINST RULE 600

POINT	COUNTER POINT (if any)
1. High school athletic participation is time intensive. High school participants' first priority should be academics. If high school participants play both on their high school team and an outside team, their academics will suffer.	1. Rule 600 allows for a high school basketball player to also play on her club softball team at the same time. Why is that ok, but not the "same" club sport as the high school? Given that students traditionally perform better academically during their season of sport than outside of the season (many studies have shown this to be the case), the argument that Rule 600 is designed to protect the students' academic emphasis (time) is not valid.
2. High school participants need to commit to the high school team. They should not have to miss a high school game for a club commitment. They should not be put in the position of having to make that decision. The high school expectation is that they will play for their high school team in every contest and participate in every practice. They can't do that and also play for a club team.	2. Same as 1. above—if they are playing on a different club sport team during high school, won't the conflicts remain? Aren't these decisions that should be made between the student, parents and the coach? Coaches can/do set standards and rules for their teams.

POINT	COUNTER POINT (if any)
3. Academics should be first. We need to help student-athlete and their families by restricting them from too much activity during the high school season.	3. Don't families have the right to make those determinations in the best interest of their family? What about the student that CAN handle more commitments? Why is CIF acting on behalf of the family? Also see 1. And 2. above.
4. During the season, having two different coaches may result in different or even conflicting coaching styles affecting the skill level of a high school player or the way a player executes a skill.	4. This may also occur in the off-season when student-athletes play for different coaches. When they return the next season they are executing a skill differently than their high school coach wants them to. Why is it just a problem during the season that we need to correct?
5. While playing on an outside team, a high school athlete may suffer an injury that affects their ability to play for their high school team and meet their high school team commitment.	5. Student-athletes can get hurt anywhere, doing anything. Accidents happen. They might even happen in practice which is allowed by Rule 600.
6. Overuse injuries are more common when student-athletes play "too much." We need to control the time they are allowed to play so they don't suffer those injuries.	<p>6. Given that the argument that Rule 600 is designed help reduce overuse injuries, then why does 600 make it allowable to play other sports at the same time or compete as an unattached individual? This refutes the argument to protect the students' safety.</p> <p>Yes, overuse injuries are more common when playing too much of the same sport, which is what Rule 600 addresses. But similar sports activities can also cause such injuries and why is CIF again making decisions best left to the families and their medical practitioner.</p>
7. If we didn't restrict student-athletes in individual sports, they would compete for their club prior to participating high school competition at the end of the season in order to win a section championship.	7. Individual sport athletes can do that now if the school, team, league or section doesn't restrict it. They can practice with the team throughout the season and continue to swim, run, etc. attached in outside competition and then join their high school team late in the season. They can also compete for their high school team and continue to compete "unattached" in outside competition during the season.

POINT	COUNTER POINT (if any)
8. If we don't control club programs, they will take over our high school programs.	<p>8. The CIF legal mandate is to govern interscholastic athletics in grades 9-12 for CIF member schools who choose to participate.</p> <p>School programs must be responsive to the interests and needs of their student population as it relates to education based athletics. We cannot control, nor do we have legal authority to govern, outside activities.</p>
9. We must have exceptions for certain Olympic Development programs and other unique circumstances for some sports.	<p>9. CIF rules have made exceptions for the elite athlete to participate in national competitions.</p> <p>Some question the appropriateness of this exception to the rule for <u>only the elite athletes</u> when our education based athletic philosophy is participation and inclusion of all students.</p>
10. Rule 600 applies to all socioeconomic groups equally. Without 600, a greater division of athletic participation among/between socioeconomic groups/schools will occur. The athletic gap between "the haves" & the "have nots" will widen between our schools. Those families that can afford year-round club teams will benefit even more so than the current status.	10. The family who can afford their own professional coach (tennis, golf) or pay the membership fees in a country club or health club will always be able to give their child an advantage.
11. School teams can organize under club team status through AAU and then practice on Sunday (or the alternate day of rest) as well as exceed daily practice time limits (set by schools, districts and some sections) and the start and end dates (for those sections that define the season of sport).	11. Should the CIF consider a rule, similar to policies implemented in other states, which would prohibit the high school coach from coaching their school's student-athletes on an outside team in the same sport during the high school season?

PROPOSAL

600. COMPETITION ON AN OUTSIDE (non-interscholastic) TEAM

A student on a high school team becomes ineligible if the student competes in a contest on an "outside" team, in the same sport, during the student's high school season of sport (See Bylaw 511). The following exceptions apply:

A. ~~_____~~ If the outside team has half or more of the team members as stated in the National Federation rules book for that sport, it shall be considered the same sport. Examples: three on three basketball—outside team competition prohibited; two on two volleyball—outside team competition permitted.

B. ~~_____~~ **Flag Football**

For purposes of this rule, touch football and flag football are considered to be a different sport than tackle football.

C. ~~_____~~ **Soccer**

In the sport of soccer, Bylaw 600 shall be in effect only during the winter high school soccer season. High school soccer programs that compete during the fall or spring season are not subject to Bylaw 600.

NOTE: For purposes of this section, indoor soccer and futsal are not considered the same sport.

D. ~~_____~~ **Swimming & Diving**

Swimmers may compete for an amateur team during the season of sport in the USA Swimming Senior National Championship Meet, the USA Swimming Sectional Championship meets and the YMCA National Meet. Divers may compete for an amateur team during the season of sport in the USA National Diving Championships and the USA National Junior Diving Championships.

E. ~~_____~~ Bylaw 600 shall not be in effect for those sports conducted outside the State adopted season of sport.

F. ~~_____~~ **Spontaneous Recreational Activity**

It is permissible for a high school team member to participate in a spontaneous recreational activity or game in which sides or teams are chosen without regard to players representing any group or organization. Such participation would not cause loss of eligibility. (Definition of spontaneous: no prior planning or notice; an unplanned part of another activity which has a primary focus other than the sport.)

G. ~~_____~~ **Unattached Competition in Individual Sports**

(1) ~~_____~~ An unattached athlete shall not represent any team. Points won by the athlete shall not be credited to any team. An unattached athlete shall not use a uniform which identifies a school or "outside" team. Any violation shall be considered an infraction of Bylaw 600.

(2) ~~_____~~ Unattached competition is permissible for a student in other than school contests during the season of sport provided the student enters in the individual sports of: badminton (singles and doubles), cross country, golf, gymnastics, skiing, swimming and diving (including unattached entry on relays), tennis (singles and doubles), track and field (including unattached entry on relays) and wrestling.

(3) ~~_____~~ **Certification of Unattached Athletes**

No official recognition or certification on the part of the CIF member school or personnel of the CIF member school may be given in order that unattached athletes may participate in contests.

(4) ~~_____~~ **Representation in CIF Competition**

Unattached competition is not permitted in any CIF competition (See Bylaw 302). Individuals or teams entered in CIF competition must represent a CIF member school. No other form of representation shall be permitted in CIF competition.

600. COMPETITION ON AN OUTSIDE (non-interscholastic) TEAM

During the individual high school student's season of sport, the student is permitted to compete on an outside team in the same sport unless the outside team, on which the student wishes to compete, is being coached by any member of that sport's high school coaching staff.

- A. The season of sport for any individual high school student is that period of time which elapses between that student's first participation in an interscholastic contest in that sport and that student's final contest in that particular sport at any level (ie. freshman, Frosh/Soph, JV or Varsity). (See also CIF Bylaw 511).
- B. Any school/team's season of sport is that period of time which elapses between the first practice session for that team and the final contest or practice session for that same team during the established season of sport.
- C. Committed, comprehensive participation in all aspects (practice competition, etc.) of educationally based high school team and individual sports experience throughout the school/team's season of sport, provides for the maximum benefit to our student athletes. As a result, the priority for interscholastic student athletes must be practicing and competing with their high school team during the entire high school season of any sport.

Therefore, the following guidelines should be considered for the benefit of the student-athlete whenever the question of participation on an outside team during any high school sports season arises:

1. Students should attend school to receive an education first; athletic participation is secondary;
2. Student athletes who practice or compete with an outside team in any sport during their high school season of sport should insure that such dual participation during the high school season does not negatively affect their academic progress.
3. Student athletes who practice or compete with an outside team in any sport during their high school season of sport should ensure their commitment to their high school team, teammates and coaches is not infringed upon by their outside sport activities.
4. The CIF and its member schools expect that the priority and loyalty of the high school student should be given to the high school program because of the benefits of participation in a high school (educationally-based) athletic program.
5. At all times, in all programs, the student's health and safety, including level and duration of practice times/activities and competitions should be everyone's highest priority.
6. Participation in high school athletics (educationally-based athletics) is considered a privilege, therefore, Schools/Districts have the authority to establish minimum requirements and expectations for participation in their high school programs, including restrictions on missing practice or games for outside/club participation.
7. This bylaw shall not supersede any School/District/Section policies that may be more restrictive as per Article 2.(22).

601. PENALTIES FOR VIOLATION OF BYLAW 600

During the individual high school student's season of sport, if a student competes on an outside team that was coached by any member of that sport's high school coaching staff the following penalties will apply:

1. The student and the coach must sit out the number of contests equal to twice the number of contests of illegal outside competition in which the student and coach participated.
2. The contests impacted by the coach and student sit out requirements, must be the next regularly-scheduled contests for that team, following discovery of the infraction.
3. If necessary in order to meet this sit out requirement, these penalties shall be carried over to the next season of that sport for both the student and the coach.

A. Individual

(1) First Offense in High School Career in Any Sport

The student becomes immediately ineligible for participation with his/her high school team for a number of contests equal to twice the number of contests of outside competition in which the student participated.

(2) Any Subsequent Offense in High School Career in Any Sport

The student becomes immediately ineligible for one year (365 days) from the second infraction in all sports.

(3) Appeals

Upon written appeal to the Section commissioner, the student may petition his/her Section for reinstatement of his/her eligibility status.

B. Team

(1) Games Forfeited

Games in which a student participated on his/her high school team after violation of Bylaw 600 shall be forfeited.

(2) Appeals

Sections may establish rules and procedures to consider requests for waivers of game forfeitures.

602. PAN AMERICAN, US PARALYMPICS OR OLYMPIC COMPETITION

During the high school season of sport, a high school student who has been selected or qualified for participation on the United States team, which will engage in Pan American, US Paralympics or Olympic competition, may participate on that team.
(Revised October 2008 Federated Council)

603. OLYMPIC DEVELOPMENT PROGRAMS

During their high school season of sport, a high school student who has been selected or qualified for an Olympic development program by the respective National Governing Body for that sport, shall be permitted to participate in such a program without loss of interscholastic eligibility, if the following conditions are met:

A. The Olympic development program is:

- (1) Verified as such by the State CIF; AND

- (2) ~~a. Conducted or sponsored by the United States Olympic Committee; OR~~
- ~~b. Directly funded and conducted by the U.S. national governing body for the sport on a national level; OR~~
- ~~c. Authorized by a national governing body for athletes having potential for future national team participation; AND~~
- ~~B. The student informs the high school principal at least 30 days prior to participating in the program; AND~~
- ~~C. The principal verifies the authenticity of the program; AND~~
- ~~D. The student makes prior arrangement to complete missed academic lessons, assignments and tests before the last day of classes of the semester in which the student's absence occurs.~~
- ~~E. This bylaw was written with the intent that only individual student athletes that have been identified by the respective National Governing body for that sport, as having Olympic potential, would be eligible for this exemption of Bylaw 600. Individual student athletes who are members of a club team(s) consisting in whole or part of high school age athletes, participating in any competitions (e.g. Super Y League events, championships, etc.), even if the competition itself is labeled as an ODP event, that occur during the high school student's season of sport are not eligible for this exemption.~~

~~(Revised May 2007 Federated Council)~~

604. ~~INTERNATIONAL COMPETITION~~

~~The Executive Director may grant approval, upon individual petition, for an athlete to travel to a foreign country to participate in international competition sanctioned by the governing body for that sport in the United States and the international governing body.~~

~~(Revised October 2008 Federated Council)~~

605. ~~PROFESSIONAL TRYOUT~~

~~A student shall become ineligible for CIF competition if he/she participates in any tryout for a professional team in any CIF approved sport during the high school season of sport. The season of sport for a school is that period of time that elapses between the first interscholastic contest and the final contest in that particular sport.~~

~~**NOTE:** See Bylaw 1200 for CIF approved sports.~~

EDUCATION

2013 BRANDMAN UNIVERSITY

I completed the coursework required by the State Department of Education to earn a Tier II California Administrative Services Credential. My work included a complete portfolio of the task and assignments related to leadership during my initial years as a school administrator.

2003 NATIONAL UNIVERSITY

I completed the coursework required by the State Department of Education to earn a Tier I California Administrative Services Credential. The coursework included the study of Educational Business, Finance and Law.

2001 NATIONAL UNIVERSITY

I completed the coursework to earn a Masters of Science in Education, Administration. During my course of study, I researched and wrote a thesis on whether high school student-athletes are more successful academically in college than nonstudent-athletes. The research showed that high school student-athletes are more successful academically in college primarily due to the life skills learned while participating in high school athletics. High school student-athletes are much better when it comes to time management, accountability and discipline.

1982 CALIFORNIA STATE UNIVERSITY, LOS ANGELES

I received my California Secondary Life Teaching Credential after completing the requirements set by the State Board of Education.

1981 CALIFORNIA STATE UNIVERSITY, LOS ANGELES

I earned a Bachelors of Science in Sociology, with a Supplemental Authorization for Sports and Games. The coursework required to earn a Bachelors of Science in Sociology included research of various cultures and society as a whole. Pan African Studies and the study of Ebonics were specifically emphasized in my research. I was also a member of the University Baseball team.

1974 BEVERLY HILLS HIGH SCHOOL

I graduated from Beverly Hills High School and earned my high school diploma. While at Beverly I participated in athletics, specifically Baseball and Football.

PROFESSIONAL EXPERIENCE

2012 – PRESENT California Interscholastic Federation Southern Section Executive Committee Treasurer

My responsibilities include overseeing and reporting all pertinent financial information related to California Interscholastic Federation to our leadership team and all of our member schools. I also act as a liaison between the member schools of the Southern Section and the State office. As a member of the California Interscholastic Federation Southern Section Executive Committee I am also responsible for participating in setting policy, hearing appeals and providing leadership and direction for the more than 500 member schools in our section.

2009 – 2012 California Interscholastic Federation Southern Section Executive Committee Member

The Executive Committee is charged with setting policy, hearing appeals, and provide leadership and direction for the more than 500 member schools in our section.

2006 – 2009 Ocean League Coordinator

I served the Ocean League by coordinating the athletic activities of the Ocean League as they related to the California Interscholastic Federation Southern Section. I was responsible for recording all of the scores for each of the athletic teams in our league. I also served as the liaison between the league and the California Interscholastic Federation.

2006 – PRESENT Authorized Instructor of the California State Ethics for High School Coaches Program

I facilitated a state mandated ethics course for all high school coaches in the state of California. I taught the importance of ethics, sportsmanship and honor as they related to high school sports. I presented and explained the educational responsibilities of a high school in the state of California.

2001 – PRESENT California Interscholastic Federation Southern Section Football Advisory committee

I helped guide the development of the vision, philosophy and goals for the sport of football within the California Interscholastic Federation Southern Section, which governs high school sports for the 600 member schools.

1997 – 2009 Athletic Director, Beverly Hills High School

I Supervised 23 sports which includes; 56 teams, 57 coaches and the participation of nearly 900 student athletes each year. Some of my responsibilities included recruiting and supervising the staffing of each team. I observed and evaluated each coach. I approved and sometimes facilitated the fundraising activities for each team.

I created and maintained an athletic budget which includes funds for; uniforms, equipment, awards, award banquets, buses and officials.

I coordinated the use of athletic facilities for practices and games.

I also created policies which would insure each student the best possible opportunity to succeed. I Facilitated all department issues as they relate to students, teachers, coaches, parents, the local community and other schools. I Facilitated the scheduling of games for the entire program. I also scheduled buses with contracted companies for the entire program. I prepared and submitted the payroll for each coach and maintained an environment that will help create a high level of academic success for our student athletes.

2000 – 2009 Director of the Beverly Hills Sports Academy

I coordinated and supervised a sports conditioning camp designed for the student athletes of Beverly Hills High School.

1990 – 2009 Head Football Coach, Beverly Hills High School

I coordinated the entire football program and provided a great learning experience for our student athletes. I also organized the efforts of our coaches, parents and supporters. I scheduled games and practices for the entire program. I also maintained the inventory, uniforms and equipment. I was also responsible for the ordering of everything related to the football program.

1983 – 2009 Physical Education Teacher, Beverly Hills High School

I provided a sound instructional atmosphere and I successfully guided students through the California State Physical Education Standards and Framework.

1995 – 1996 Physical Education Department Chairperson

I reviewed and aligned our curriculum to the California State Standards and Framework. I selected course offerings and the staff accordingly. I conducted staff observations. I provided honest evaluations for teachers and I offered the proper support to insure that our students had the best opportunity to succeed.

I reviewed, revised and some cases created department policies. I mediated issues related to students, teachers and parents.

I created and maintained a small department budget.

1979 – 1989 Athletic Assistant, Beverly Hills High School

I served as an assistant coach for both the football and baseball programs. My responsibilities included supporting the efforts of each of the respective head coaches.
