		Tri-Valley	Sunkist
		Valle Vista	

as of 1/17/19

Swimming and Diving is scored by league (boys and girls together) using team scoring information from the 2018 divisional championship meets. Using that data, an average "per school" point total is calculated. League/s with the lowest average per school point total/s are given relief with the league/s earning the highest per school point total moving up. Prior to team points being tabulated, the points achieved by seniors are eliminated, the points achieved by juniors are cut in half with sophomore and freshman points earning a ratio of 1:1.

These league placements are preliminary and are based off last year's results as well as the information received from league coordinators in regards to league participation. Should new information received affect any data, the divisional placements ARE subject to change.
