

2024 – 2025 Boys' Soccer Rankings Report #5

Athletic Directors and Head Coaches please review the following pages for accuracy.

As the season ends on Wednesday, February 5th now is the time to review all dates, opponents, scores, etc. Click on each contest to make sure you have entered the correct opponent from the correct CIF Section As information is continuously updated rankings change daily and will not be final until the end of the regular season.

Individual school power rankings can't / will not be adjusted at the request of a member school. Schools are placed in a division based solely on the power ranking and no adjustments will be made by the advisory committee or myself. Records MUST be accurate.

The information in this report came directly from CIFSSHome and your entered schedule as of Monday, **February 3, 2025**. No other outside source can or will be used to collect the information. If you have only entered information into MaxPreps or another source, you must update/correct that information now. All contests/results should be entered.

The "PwrRank" column will be the one used to determine your team's playoff division at the end of the regular season.

The "SoSched" column will be used to break a potential tie between two or more teams that have identical ratings.

If you see a discrepancy on your schedule before calling our office, please confirm all contests on your CIFSSHome Team page. It is possible that you have a contest entered twice due to game date change or you have selected the wrong opponent.

Update all tournament information with the correct opponent, date and results. Remove the "TBA" as the opponent.

Look for any duplicate games or entries that are +/- a day. If your opponent has an incorrect date the contest will appear twice on your schedule.

Check opponents on your schedule to confirm you have selected the correct team from the drop-down menu. The report is showing that several schools incorrectly selected a middle school / junior high as the opponent.
