At HOI, We Get You Back to You.

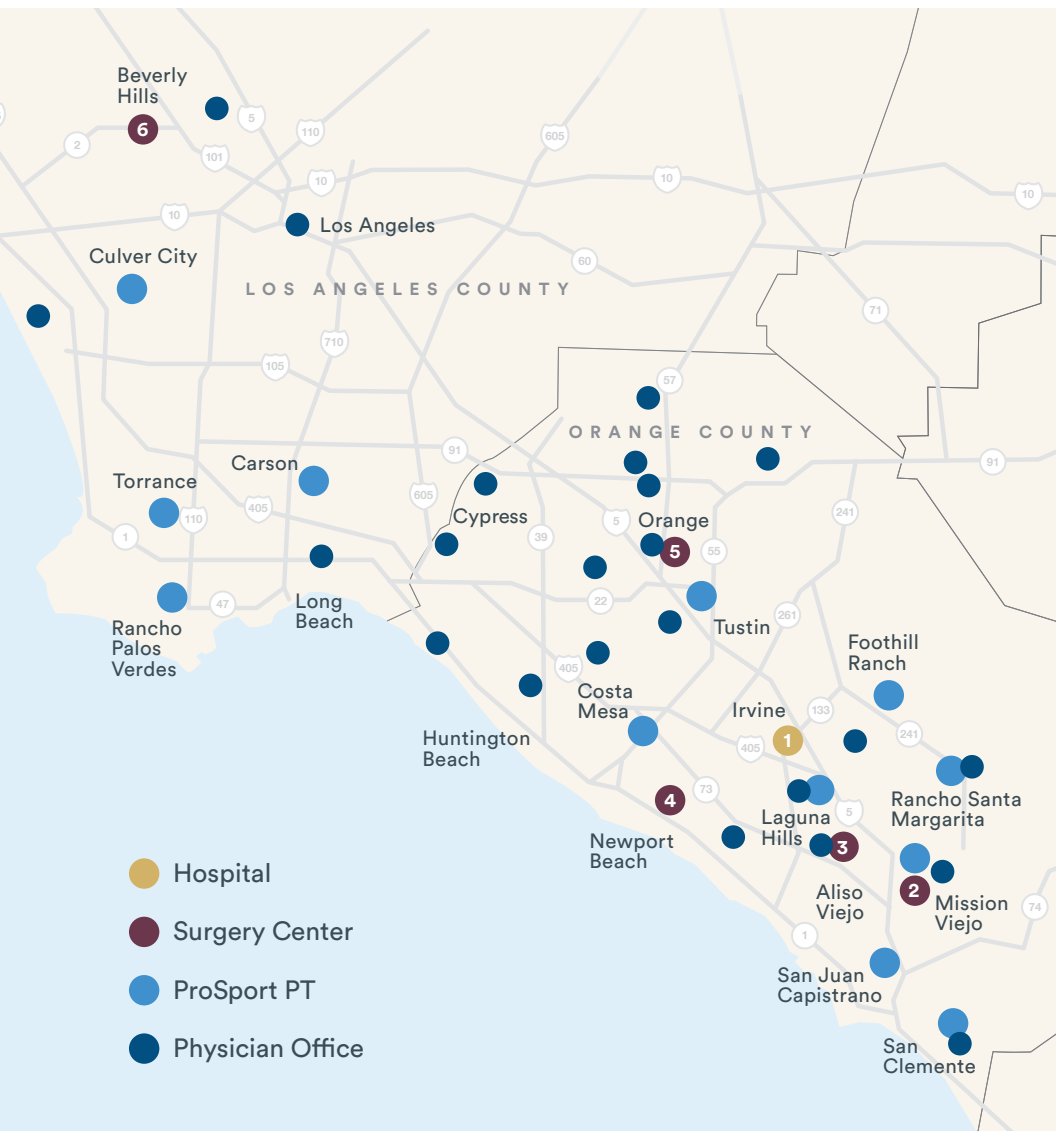

Award-Winning Orthopedic and Spine Services in Southern California

Hoag Orthopedic Institute is a world-class specialty hospital and surgery center network. We are the highest volume joint replacement center on the West Coast and perform more spine surgeries than any other hospital in Orange County. We are a destination for complex and revision surgical interventions due to our sought-after expertise.

Many of our physicians utilize robotic technologies and other innovative surgical techniques, including minimally invasive and endoscopic approaches. Our physician leaders are also active in clinical research, and HOI is proud to host a coveted fellowship program.

Locations

*Please note physician offices may be in another location.
Verify location with your physician directly.
